Narrative Report

The Key Accounting Standards and Statements

We have followed the Chartered Institute of Public Finance & Accountancy's Code of Practice on Local Authority Accounting in Great Britain in compiling our statement of accounts for 2015/16.

The accounts fairly reflect South Somerset District Council's financial position for the financial year ended 31 March 2016 and have been produced on a going concern basis. Our accounting policies are outlined in this document and have been fairly and consistently applied. We keep proper and up-to-date accounting records and take all reasonable steps to prevent and detect fraud and other irregularities.

The Assistant Director - Finance and Corporate Services is the statutory officer responsible for the proper administration of the Council's financial affairs. She is now required by law to confirm that the Council's system of internal controls can be relied on to produce an accurate statement of accounts. Her statement of assurance for 2015/16 appears on page 11 of this document.

The main statements included in the accounts along with an explanation of their purpose are as follows:

Movement in Reserves Statement (pg 27)
This statement summarises the movement in the year of the different reserves held by the authority.

Comprehensive Income and Expenditure Statement (pg 28)
This account consolidates all the gains and losses experienced by the authority during the financial year. It details information about total expenditure on the services that we provide. Income for each service is matched against the expenditure to show the net cost of services. The account also shows how much is received from council tax payers and from general government grants to help meet the cost of services.

Balance Sheet (pg 29)
The balance sheet provides a snapshot of our financial position as at 31 March 2016. It sets out what we own and what we owe at that point in time.

Cash Flow Statement (pg 30)
This statement summarises the total cash movements during the year for both capital and revenue purposes.

Collection Fund (pg 68)
We are legally obliged to maintain this fund separately from all our other funds and accounts. It shows the transactions that have arisen because we are a billing authority, collecting non-domestic rates and council tax on behalf of the precepting authorities (the police, fire service, county council, central government, town and parish councils) as well as for ourselves. The collection fund records the income we receive from local tax payers and the money that is distributed as a precept/proportionate share.

Revenue Account Summary
Our revenue account (also known as the General Fund) bears the net costs of providing day-to-day services.

The budget for the 2015/16 financial year was set in February 2015.

Comparing actual spending to budget

The budget for the year was supported by a Band D Council Tax of £147.75 a reduction of 1.99%.

Our original total net expenditure budget for the year was £17.4m. This represents the net cost of services taking into account:
- £46.9m of specific government grants;
- £13.1m income from fees and charges for services provided; and
- £0.5m of income from our investments.

It also included savings of £0.9m;

The total net expenditure budget for the year was financed by:
- £6.2m of business rates and general government grants
- £8.3m of council tax income; and
- £2.9m of new homes bonus

Our final revenue account for the year showed an under spend compared to the original and revised budget for the year. At the year end SSDC actually under spent on its original budget by £410k and its revised budget by £803k.

Explaining the big differences

The four main variances between actual net spending and the revised budget that contributed to the variation were:

- Revenues & Benefits underspent by £282k due to increased recovery on housing benefit overpayments and legal fees.
- Economic Development underspent by £119k through increased rental income at Yeovil Innovation Centre and savings on salary costs.
- Strategic Management underspent by £88k due to £10k committed but not yet spent against the Symphony Project and £78k underspend against the training budget.
- Housing & Welfare had lower costs on bed & breakfast and homeless prevention. Income from Careline also increased. This amounted to an underspend of £82k.

Reporting against budget

The table below provides a high level summary of our net expenditure on services. The analysis reflects the responsibilities of our Executive Board Members.

All budgets are split between 'above' and 'below' the line with managers only being responsible for 'above' the line items. Above the line budgets include all of the items considered to be under the managers' control and include such things as employee costs, supplies and services, income etc. Below the line budgets include support services, capital charges and revenue expenditure funded from capital under statute. As every item of expenditure and income is above the line somewhere in the Council's accounts, only above the line items are reported to committee for budget monitoring purposes. The total cost of the service is established by adding the above and the below the line items together.

The table below sets out the overall picture of the 'above the line' revenue budgets that will form part of the annual Statement of Accounts. It compares the position to the previous financial year and the original and revised budget for 2015/16.

Previous Year Spend 2014/15 £'000	Service	Original Budget 2015/16 £'000	Outturn Budget 2015/16 £'000	Actual Spend 2015/16 £'000	Variation £'000

Reconciliation to the Comprehensive Income and Expenditure Statement

The Comprehensive Income and Expenditure Statement gives detailed information about the total expenditure on the services we provide. It also shows the council tax and government grants we received to help pay for those services.

The figures used in the table beneath are reconciled to the Comprehensive Income and Expenditure Statement as follows:

2014/15 £'000		2015/16 £'000
(86,482)	Gross Income - "Where the money came from"	(86,638)
89,110	Gross Expenditure - "Where the money went"	89,060
2,628	**(Surplus)/Deficit for the year per the Comprehensive Income and Expenditure Statement**	**2,422**

Where the money came from

The following table provides an analysis of our main sources of income and compares the position to the prevous financial year.

2014/15 £'000	Sources of Income	2015/16 £'000
12,642	Council Tax Payers (Including Parish Precept of £4,542k)	12,770
10,413	Central Government Support (Including Business Rates)	11,806
48,148	Specific Government Contribution	46,069
1,420	Non Government Grants & Contributions	770
12,206	Sales, Fees & Charges	13,632
594	Interest on Investment	594
1,059	Share of Right to Buy Receipts and Other Easements	997
86,482	**Gross Income**	**86,638**

Where the money went

The following table provides an analysis of our main types of expenditure we incur and compares the position to the previous financial year.

2014/15 £'000	Categories of Expenditure	2015/16 £'000
15,470	Employees	16,252
3,006	Premises Related	3,109
1,092	Transport Related	1,015
6,537	Supplies and Services	6,685
6,012	Third Party Payments	6,071
44,360	Payments to Benefits Claimants	45,032
8,181	Capital & Financing Charges	6,354
4,452	Town & Parish Precepts	4,542
89,110	**Gross Expenditure**	**89,060**

Capital Account Summary

Our Capital account shows the income and expenditure transactions we make when we:

- buy or sell land or property;
- build new property;
- carry out major repairs or improvements to our properties;
- provide grants for the above type of activity.

Comparing actual gross spending to gross budget

Our original gross budget plan for the year was to spend £6.959m on capital projects. We revised our capital budget for the year to take account of the position at the end of the 2015/16 financial year and the progress on the ground with our capital projects. The revised gross budget total was £3.593m.

The decrease of £3.366m between the original and revised budget is mainly due to a £1.9m loan not drawn upon, some larger projects slipping into next year and some reserves not being used as profiled. Our gross capital spend for the year was £3.227m, in addition £95k was spent on leased vehicles.

Explaining the big differences

The gross amount spent was £366k less than the revised gross budget. The top two variances between actual gross spend and the revised budget that contributed to the variation was:

- £118k under spend on affordable housing. This relates to two developments that have been delayed therefore 'start on site' payment not yet claimed by Housing Authorities.
- £105k relates to S106 leisure grants not paid over to groups as profiled.

Where the money went:

	Original Budget 2015/16 £'000	Outturn Budget 2015/16 £'000	Actual Spend 2015/16 £'000	Variation £'000
Finance & Corporate Services	3,540	432	354	(78)
Economy	915	855	737	(118)
Communities	676	165	118	(47)
Environment	1,452	1,499	1,576	77
Health & Well-being	376	642	537	(105)
Total Spent	**6,959**	**3,593**	**3,322**	**(271)**

Of the £271k underspend, all will be carried forward to spend in 2016/17.

Where the money came from:

Financing of Capital Expenditure	2015/16 £'000
Capital receipts	1,869
Capital Fund	427
Capital grants from non-government funding partners	428
Capital grants from central government	598
Gross capital spend	**3,322**

As the table shows, we continued with our good record of levering in other people's money to help pay for our capital projects. We contributed £2.296m towards the £3.322m we spent last year. This means, for every £1 of our capital resources we contributed, we received 45p from external organisations.

Our capital receipts are very important to us. Income from our investments is required to support the revenue account each year. We began 2015/16 with £35.66m of capital receipts that could be used to fund capital expenditure and ended the year with £34.98m.

The Table below shows the capital receipts we received in the year and the amount that was used to fund capital expenditure.

2014/15 Total £'000	Movement in Year	2015/16 Total £'000
(36,396)	Balance at beginning of year	(35,659)
(1,207)	Receipts from Sale of Assets	(1,141)
1,938	Receipts applied to finance capital expenditure	1,804
6	Amounts payable to the housing capital receipt pool	7
(35,659)	**Balance at end of year**	**(34,989)**

Cashflow

The Council maintains short and long term cash flow projections. The Council has no long term borrowing commitments. As at the 31st March 2016 the Council held £49.2 million in investments. Of this sum around 60% was held in highly liquid investments. Only £7.2 million was invested for longer than 364 days and no investments were made for longer than five years.

Reserves and Balances Summary

Sound financial management and a strong track record of striking the right balance between spending and the need to maintain a core level of resources to support the revenue account means that our finances are in a healthy state. The state of our financial well being is reflected in the level of reserves and working balances we hold.

The General Fund Balance of £8.27m, represents the accumulated revenue surpluses and should provide a financial cushion should anything unexpected happen that leads to unplanned expenditure.

An exercise is undertaken to establish the areas of significant risk within the revenue budget and the likelihood of the risk occurring. This assessment allows us to calculate how much money the Council should hold in reserve, for 2015/16 the figure was in the range of £3.30m and £3.70m as at the 31st March 2016.

In addition we maintain a number of earmarked reserves. These are special reserves we keep for specific types of expenditure in the future. Examples include election costs, leisure centre repairs, grant and leisure development. We added £3.47m to these reserves during the course of the year, but also spent £1.15m on specific projects during the year. As at 31 March 2016 we have £13.06m of these earmarked reserves.

Balance Sheet Summary

At 31 March 2016 the authority's net assets amounted to £38.23M (£23.40m at 31 March 2015). The authority's net assets were significantly increased by the inclusion of the pension scheme liability of £68.58m (compared to £80.30m at 31 March 2015). The present value of the pension scheme liabilities have reduced to £148.51m (from £160.80m at 31 March 2015) and the fair value of the scheme assets have reduced to £79.93m (£80.50m at 31 March 2015).

In practice the amount of net worth that can be used is £56.83m (Usable Capital Receipts £34.98m, Capital Grants Unapplied £0.52m, Earmarked Reserves £13.06m and General Fund Balances £8.27m). The Authority also has shares in a joint venture with net worth of £0.60m. The remaining £19.20m is held in technical reserves which are not available for use.

Independent Auditor's report to the members of South Somerset District Council

We have audited the financial statements of South Somerset District Council (the "Authority") for the year ended 31 March 2016 under the Local Audit and Accountability Act 2014 (the "Act"). The financial statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Collection Fund and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Act and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Assistant Director – Finance and Corporate Services and auditor

As explained more fully in the Statement of the Assistant Director – Finance and Corporate Services Responsibilities, the Assistant Director – Finance and Corporate Services is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2015/16, which give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Authority's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Assistant Director – Finance and Corporate Services; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Narrative Report and the Annual Governance Statement [and the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- present a true and fair view of the financial position of the Authority as at 31 March 2016 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 and applicable law.

Opinion on other matters

In our opinion, the other information published together with the audited financial statements in the Narrative Report and the Annual Governance Statement and the Annual Report is consistent with the audited financial statements.

Matters on which we are required to report by exception

We are required to report to you if:

- in our opinion the Annual Governance Statement does not comply with the guidance included in 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007; or
- we issue a report in the public interest under section 24 of the Act; or
- we make a written recommendation to the Authority under section 24 of the Act; or

- we exercise any other special powers of the auditor under the Act.

We have nothing to report in these respects.

Conclusion on the Authority's arrangements to secure value for money through economic, efficient and effective use of its resources

Respective responsibilities of the Authority and auditor

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 20(1)(c) of the Act to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Scope of the review of the Authority's arrangements to secure value for money through economic, efficient and effective use of its resources

We have undertaken our review in accordance with the Code of Audit Practice prepared by the Comptroller and Auditor General as required by the Act (the "Code"), having regard to the guidance on the specified criteria issued by the Comptroller and Auditor General in November 2015, as to whether the Authority had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined these criteria as those necessary for us to consider under the Code in satisfying ourselves whether the Authority put in place proper arrangements to secure value for money through the economic, efficient and effective use of its resources for the year ended 31 March 2016.

We planned our work in accordance with the Code. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether in all significant respects the Authority has put in place proper arrangements to secure value for money through economic, efficient and effective use of its resources.

Conclusion

On the basis of our work, having regard to the guidance on the specified criteria issued by the Comptroller and Auditor General in November 2015, we are satisfied that in all significant respects the Authority has put in place proper arrangements to secure value for money through economic, efficient and effective use of its resources for the year ended 31 March 2016.

Certificate

We cannot formally conclude the audit and issue an audit certificate for the Authority for the year ended 31 March 2016 in accordance with the requirements of the Act and the Code until we have completed our consideration of matters brought to our attention by local authority electors relating to the 2013/14 accounts. We are satisfied that these matters do not have a material effect on the financial statements or on our conclusion on the Authority's arrangements for securing value for money through economic, efficient and effective use of its resources.

Statement of Responsibilities for the Statement of Accounts

The Authority's Responsibilities

The Council is required to:-

- make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this authority, that responsibility rests with the Assistant Director – Finance and Corporate Services;

- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;

- approve the Statement of Accounts.

Assistant Director – Finance and Corporate Services' Responsibilities

The Assistant Director – Finance and Corporate Services is responsible for the preparation of the authority's statement of accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code of Practice').

In preparing this statement of accounts, the Assistant Director – Finance and Corporate Services has:

- selected suitable accounting policies and then applied them consistently;

- made judgements and estimates that were reasonable and prudent;

- complied with the CIPFA Code of Practice.

The Assistant Director – Finance and Corporate Services has also:

- kept proper accounting records which were up to date;

- taken reasonable steps for the preventing and detection of fraud and other irregularities.

I confirm that this Statement of Accounts presents a true and fair view of the financial position of South Somerset District Council at the 31 March 2016 and its income and expenditure for the year ended 31 March 2016.

Signed:

Donna Parham, Assistant Director – Finance and Corporate Services

Date: 26th July 2016.

Statement of Accounting Policies

1. General Principles

The Statement of Accounts summarises the Council's transactions for the 2015/16 financial year and its position at the year end of 31 March 2016. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which those regulations require to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 and the Service Reporting Code of Practice (SeRCOP) 2015/16 supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

2. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.

- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.

- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.

- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.

- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.

- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

3. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more that 24 hours.

Cash equivalents are short-term highly liquid investments that are readily convertible within 24 hours to known amounts of cash and which are subject to an insignificant risk of changes in value. SSDC will include deposits in Money Market Funds and Business Reserves in Cash Equivalents.

In the Cash Flow Statement, cash and cash equivalents are shown net of the bank overdrafts that are payable on demand and form an integral part of the Authority's cash management.

4. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting polices are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting the opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

5. Exceptional Items

When items of income and expense are material, their nature and amount are disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to the understanding of the Authority's financial performance.

6. Charges to Revenue for Non-Current Assets

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding fixed assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which they can be written off.
- Amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement.

Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution to the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

7. Employee Benefits

Benefits Payable During Employment
Short-term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave and paid sick leave and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus and Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits
Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement when the Authority is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post Employment Benefits
Employees of the Authority are members of the Local Government Pensions Scheme administered by Peninsula Pensions, which provides defined benefits to members (retirement lump sums and pensions) earned as employees worked for the Authority.

The Local Government Pension Scheme
The Local Government Pension Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Peninsula Pension Scheme attributable to the Council are included in the balance sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to the retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.

- Liabilities are discounted to their value at current prices, using a discount rate that is the annualised yield at the 19 year point on the Merrill Lynch AA rated corporated bond yield curve.

- The assets of the Peninsula pension fund attributable to the Council are included in the balance sheet at their fair value:
  - quoted securities - current bid price
  - unquoted securities - professional estimate
  - unitised securities - current bid price
  - property - market value

The change in net pensions liability is analysed into the following components:

- Service Cost Comprising:
  - Current service cost – the increase in liabilities as a result of years of service earned this year is allocated to the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
  - Past service costs – the increase in liabilities as a result of a scheme amedment or curtailment whose effect relates to years of service earned in earlier years is debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
  - Net interest on the net defined benefit liability, ie net interest cost for the authority – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement - this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period - taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments.

- Remeasurement comprising:
  - The return on plan assets - excluding amounts included in net interest on the net defined benefit liability - charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
  - Actuarial gains and losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Contributions paid to the Peninsula pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the Pension Fund or directly to the pensioners in the year, not the amount calculated according the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measure the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits
The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

8. Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:
- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events
- Those that are indicative of conditions that arose after the reporting period – the Statements of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

9. Financial Instruments

Financial Liabilities
Financial liabilities are recognised on the Balance Sheet when the Authority becomes party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest of the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

This means that the amount presented in the Balance Sheet is the outstanding principal repayable and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the

loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over a minimum period equal to the outstanding term on the loan or 10 years (if shorter) against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets
Financial assets are classified into two types:
- Loans and receivables - assets that have fixed or determinable payments but are not quoted in an active market
- Available-for-sale assets - assets that have a quoted market price and/or do not have fixed or determinable payments

Loans and Receivables
Loans and receivables are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. This means that the amount presented in the Balance Sheet is the outstanding principal receivable and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available-for-sale-Assets
Available-for-sale assets are recognised on the Balance Sheet when the Authority becomes a party to the contractual provision of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following techniques
- Instruments with quoted market prices - the market price
- Other instruments with fixed and determinable payments - discounted cashflow analysis
- Equity shares with no quoted market prices - independent appraisal of company valuations

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- level 1 inputs - quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date
- Level 2 inputs - inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly
- Level 3 inputs - unobservable inputs for the asset

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for Sale Financial Assets. The exception is where impairment losses have been incurred - these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain/loss for the asset accumulated in the Available-for-Sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains/losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the insturment is carried at cost (less any impairment losses)

10. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- The authority will comply with the conditions attached to the payments, and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income and Expenditure (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

11. Intangible Fixed Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) are capitalised at cost when they are expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might have fallen in value – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

12. Inventories and Long Term Contracts

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the FIFO (first in first out) costing formula.

Long term contracts are accounted for on the basis of charging the Surplus and Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

13. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and building elements are considered separately for classification.

The Authority as Lessee

Finance Leases
Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:
- a charge for the acquisition of the interest in the property, plant and equipment – applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, plant and equipment recognised under finance leases are accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period)

The Authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by revenue contributions in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases
Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease.

The Authority as Lessor

Finance Lease
Where the Authority grants a finance lease over a property of an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals are apportioned between:
- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with premiums received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases
When the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

14. Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice (SeRCOP) 2015/16. The total absorption costing principal is used where the full cost of overheads and support services are shared between users in proportion to the benefits received with the exception of:

- Corporate and Democratic Core – costs relating to the Council's status as a multi-functional, democratic organisation.
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and impairment losses on Assets Held for Sale.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

15. Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are valued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

16. Joint Operations

Joint operations are arrangements where the parties that have control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the Authority in conjunction with other joint operators involve the use of the assets and resources of those joint operators. In relation to its interest in a joint operation, the Authority as a joint operator recognises:

- Its assets, including its share of any assets held jointly
- Its liabilities, including its share of any liabilities incurred jointly
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation
- Its expenses, including its share of any expenses incurred jointly.

17. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred. There are two exceptions to this:

- the expenditure incurred is below £10,000, except Capital Grants where the limit is £1,000. In such cases expenditure is charged direct to the revenue accounts.
- the asset is acquired through an operating lease when rental payments are charged to the revenue account.

Measurement

Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use (such as purchase price; any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management).

Assets are then carried in the Balance Sheet using the following measurement basis:

- Infrastructure, community assets and assets under construction – depreciated historical cost.
- All other assets – fair value, determined as the amount that would be paid for the asset in existing use (existing use value – EUV).

Where there is no market based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Assets included in the balance sheet at fair value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:
- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Capital expenditure incurred in enhancing assets or increasing their useful life is classed as enhancing expenditure.

Assets which have been significantly enhanced are brought forward in the five-year rolling programme to ensure that the independent valuer can correctly assess their new carrying value, this ensures that any potential overstatement only reflects a short timing difference between the enhancement taking place and the valuer assessing its impact on the asset's carrying value.

Impairment
Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:
- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation
Depreciation is provided for on all Assets with a determinable finite life (except for investment properties), by allocating the value of the assets in the balance sheet over the periods expected to benefit from their use.

Depreciation is calculated on the following bases:
- Dwellings and other buildings – straight-line allocation over the life of the property as estimated by the valuer.
- Vehicles, plant and equipment - straight-line allocation over the life of the asset.
- Infrastructure – straight-line allocation over the life of the asset.

The following standard estimated lives are used for newly acquired assets:

	Years
Office Buildings	60
Public Conveniences	50
Sports and Leisure Centres	40
Vehicles	10
Cremators	10

Where an asset includes a number of components with significantly different asset lives, these components are then treated as separate assets and depreciated over their own useful economic lives. See Component Accounting Policy.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Assets that are sold during the year are treated as if sold on 31 March and the service accounts receive a full year's charge for depreciation as appropriate. Assets acquired during the year attract no charge.

Disposals and Non-current Assets Held for Sale
When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts in excess of £10,000 received from disposals are categorised as capital receipts and credited to the Capital Receipts Reserve, which can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement. If the proceeds are £10,000, or less, they are not treated as capital receipts but are instead credited to revenue.

The written off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

A proportion of receipts relating to housing disposals is payable to the Government. In practice this relates only to mortgage repayments, 75% of which must be paid over to the Government.

18. Component Accounting

Components of non-current assets do not always have the same useful lives and may depreciate or wear out at different rates throughout their life. Therefore, it is appropriate to depreciate each significant component separately over its useful life, in order that the Comprehensive Income & Expenditure Statement is fairly charged with the consumption of economic benefits of those assets.

Where a significant component is expected to wear out more quickly than the overall asset, it is depreciated over a shorter period of time and any subsequent expenditure on restoring or replacing the component is capitalised (with any carrying amount of the replaced component being written off to the Comprehensive Income and Expenditure Statement).

From 1st April 2010, components will be recognised when an asset is enhanced, acquired or re-valued. Where a component is replaced or restored, the carrying amount of the old component is derecognised.

- Land and individual buildings are valued separately.

- Assets are deemed to be material and considered for componentisation when the cost or value in the Balance Sheet is at least £500,000 (approximately 1% of the authority's non current assets).

- Each asset is reviewed individually by the valuer to determine whether any part of a material asset has a differing useful life or method of depreciation. The assets are reviewed by the following:
  - Sub Structure
  - Superstructure (frame, upper floors, roof, stairs, external walls, windows, external doors, internal walls, partitions, internal doors)
  - Internal finishes (walls, floors and ceilings)
  - Fixtures (sanitary, water, disposal equipment)
  - Engineering services (heating, air treatment, gas installations, lifts, protective, communications)
  - External works

- Where component spend is worth 20% of the total cost value of the asset it is deemed to be significant. Where information is not readily available to determine the value of components, a best estimate will be accounted for and detail of how the estimate was arrived at, in liaison with relevant professional advice, will be documented.

19. Heritage Assets

A heritage asset is an asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture. There is no requirement for valuations for heritage assets to be verified by external valuers, nor is there any prescribed minimum period between valuations. Where the cost of obtaining valuation information is not commensurate with the benefits, the Council will not recognise these assets in the Balance Sheet.

The Council's heritage assets are predominately the museum stock that is held at the Community Heritage Access Centre (CHAC).

The Authority recognises these collections on the Balance Sheet using its base as the detailed insurance valuations held by the Authority in respect of the collections. The collections are deemed to have indeterminate lives; hence the Authority does not consider it appropriate to charge depreciation.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration or breakage. Any impairment is recognised and measured in accordance with the Authority's general policies on impairment. Disposals of any heritage assets are accounted for in accordance with the Authority's general provisions relating to the disposal of property, plant and equipment. Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.

20. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the authority becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the balance sheet. Estimated settlements are reviewed at the end of each financial year; where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payments required to settle a provision are expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the authority settle the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the Council's control. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain furture events not wholly within the control of the authority.

Contingent assets are not recognised in the balance sheets but disclosed in note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

21. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back to the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Authority.

22. Revenue Expenditure Funded from Capital Under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so there is no impact on the level of council tax.

23. VAT

The Council does not include VAT as part of income or expenditure, whether of a capital or revenue nature except where it is not able to recover VAT.

24. Related Party Transactions

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. The materiality of the transaction has been considered before justifying inclusion in the statements. Transactions disclosed elsewhere in the statement of accounts are not cross referenced in the note. Disclosure is only required where the Council has gone beyond providing financial assistance to having a relationship with the assisted organisation that allows it to exert control over the organisation's financial and operational policies.

25. The Collection Fund

Billing authorities in England are required by statute to establish and maintain a separate fund for the collection and distribution of amounts due in respect of council tax and national non-domestic rates (NNDR).

There is no requirement for a separate Collection Fund Balance Sheet as balances are distributed across the Balance Sheets of the billing authority, the Government and precepting authorities.

Further details on the Collection Fund use can be found on page 68.

26. Accounting for Council Tax

The collection of Council Tax income is in substance an agency arrangement, the cash collected by the Council from council tax debtors belongs proportionately to the Council and the major preceptors. There will therefore be a debtor/creditor position between the Council and each major preceptor to be recognised since the net cash paid to each major preceptor in the year will not be its share of the cash collected from council taxpayers.

The Council Tax income included in the Taxation and Non Specific Grant Income line in the Comprehensive Income and Expenditure Statement shall be the accrued income for the year. This is calculated by taking the demand on the Collection Fund plus the authority's share of the carry forward surplus/deficit on the Collection Fund as at the 31st March 2016. This amount is then adjusted for the authority's share of the surplus/deficit at 31st March 2015 that has not been distributed or recovered in the current year.

The difference between the income included in the Taxation and Non Specific Grant Income line in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the Collection Fund shall be taken to the Collection Fund Adjustment Account and included as a reconciling item in the General Fund in the Movement in Reserves Statement.

27. Accounting for National Non-Domestic Rates (Business rates)

The collection of National Non-Domestic Rates income is in substance an agency arrangement, the cash collected by the Council from business rates debtors belongs proportionately to the Council, Central Government and the major preceptors. There will therefore be a debtor/creditor position between the Council, Central Government and each major preceptor to be recognised since the net cash paid to Central Government and each major preceptor in the year will not be its share of the cash collected from business rate payers.

The National Non-Domestic Rates income included in the Taxation and Non Specific Grant Income line in the Comprehensive Income and Expenditure Statement shall be the accrued income for the year. This is calculated by taking the demand on the Collection Fund plus the authority's share of the carry forward surplus/deficit on the Collection Fund as at 31st March 2016. This amount is then adjusted for the authority's share of the surplus/deficit of 31st March 2015 that has not been distributed or recovered in the current year.

The difference between the income included in the Taxation and Non Specific Grant Income line in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the Collection Fund Adjustment Account and included as a reconciling item in the General Fund in the Movement in Reserves Statement.

The Business Rates Retention model replaced the previous funding formula whereby all business rates collected were paid over to Central Government to be allocated back on a formula basis. The new scheme was implemented on 1 April 2013 and the government set each Local Authority a baseline. This was based on the current level of funding under the previous formula scheme. Business Rates Retention is based on 50% of business rates collected being retained by Local Authorities (40% South Somerset District Council, 9% Somerset County Council and 1% Devon and Somerset Fire and Rescue).

Top-ups and tariffs are part of the system of redistribution. The Council pays a tariff as it collects more business rates than it keeps and distributes. The safety net provides protection against significant reduction in income as a result of the scheme by guaranteeing that no authority sees its retained rates income fall below a fixed percentage of its baseline funding. These payments are funded through a levy which is applied when the retained rates income level for the year is more than its baseline funding for the year.

Movement in Reserves Statement

Reserves represent the authority's net worth and shows its spending power. This statement shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for council tax setting purposes. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserve Statement.

Balance Sheet (Brackets represent liabilities)

The balance sheet is a 'snapshot' of the authority's financial positon at a specific point in time, showing what it owns and owes at 31st March.The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the authority. Reserves are reported in two categories. The first category of reserves are 'Usable Reserves' i.e. those reserves that the authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example revaluation reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences in the Movement in Reserve Statement line 'adjustments between accounting basis and funding basis under regulations'.

I confirm these accounts were approved by the Audit Committee at the meeting held on 26 July 2016.

Signed: Date: 26/7/2016

Cllr Derek Yeomans, Chair of Audit Committee

These financial statements replace the unaudited financial statements certified by Donna Parham on 3rd June 2016.

Signed: Date: 26th July 2016

Donna Parham, Assistant Director - Finance & Corporate Services

Cash Flow Statement (Brackets on this page represent income)

The Cash Flow Statement shows the changes in cash and cash equivalent of the authority during the reporting period. The statement shows how the authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the authority are funded by way of taxation and grant income or from the recipients of services provided by the authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the authority.

Year Ended 31 March 2015		Year Ended 31 March 2016

Notes to the Accounts

1. Accounting standards that have been issued but have not yet been adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2016/17 Code:

IAS 1 Presentation of Financial Statements. This standard provides guidance on the form of the financial statements. The 'Telling the Story' review of the presentation of the Local Authority financial statements as well as the December 2014 changes to IAS 1 under the International Accounting Standards Board (IASB) Disclosure Initiative will result in changes to the format of the accounts in 2016/17. The format of the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement will change and introduce a new Expenditure and Funding Analysis.

Other minor changes due to Annual Improvement to IFRSs cycles, IFRS11 Joint arrangements, IAS 16 Property Plant, Equipment and IAS 38 Intangible Assets and IAS 19 Employee Benefits are minor and are not expected to have a material effect on the Council's Statement of Accounts. The Code requires implementation from 1 April 2016 and there is therefore no impact on the 2015/16 Statement of Accounts.

2. Critical judgements in applying accounting policies

In applying the accounting policies, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- Whether a lease is an operating or a finance lease
  The Council will account for leases as finance leases where substantially all the risks and rewards are incidental to ownership of the leased asset life with the Council. The asset is recorded as Property, Plant and Equipment and a corresponding liability is recorded. The finance leases recorded in the Statement of Accounts are due to the fact that:
  - the lease term is for the major part of the economic life of the asset
  - the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset.

- Whether land and buildings owned by the authority are investment properties
  Since investment properties are properties held solely to earn rentals or for capital appreciation or both, properties that earn rentals as an outcome of a regeneration project will be accounted for as Property, Plant and Equipment rather than investment property. Social Housing is delivering a service and will also be accounted for as Property, Plant and Equipment.

- Whether short-term investments are cash equivalents
  Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Council will include deposits in Money Market Funds and Business Reserves in Cash Equivalents.

- Whether to componentise non-current assets
  As components of non-current assets do not always have the same useful lives and may depreciate or wear out at different rates throughout their life it is appropriate to depreciate each significant component separately over its useful life. Components will be recognised when a significant asset (i.e. assets where the cost or value is at least £500,000) is enhanced, acquired or re-valued.

- Whether to recategorise non-current assets to Heritage Assets
  Assets had to be assessed to ascertain whether they fell into the criteria for Heritage Assets. Assets are deemed Heritage Assets if they are held for historical, artistic, scientific, technological, geophysical or environmental quality that are held and maintained principally for its contribution to knowledge and culture.

- Whether insurance valuations are used rather than professional valuations for Heritage Assets
  Insurance valuations are considered appropriate for Heritage Assets, these are provided annually in June by the Heritage Team based on their knowledge and research of the current auction price. The potential costs of professional valuations are of no benefit since such assets will never be sold, and only used if lost, stolen or broken.

- Whether Lufton 2000 is a joint venture or a joint operation
  Lufton 2000 is a joint operation since there is joint control of decisions about the relevant activities of the arrangement. Therefore there is not a requirement to produce group accounts.

- Whether Property, Plant and Equipment requires valuation every year
  Property, Plant and equipment is valued on a 5 year rolling programme due to the asset base being too large and costly to revalue every year. Assets that benefit from large expenditure during the financial year are revalued outside of the 5 year rolling programme. The Council seeks advice from the District Valuer as to his professional opinion on the changing values of assets and whether these are material.

- Whether to make provisions for Appeals on Business Rates
  The Council has calculated an estimate of expenditure requried to settle the present obligation based on appeals submitted by ratepayers. The estimate is based on probablilities and historical experience.

3. Assumptions made about the future and other major sources of estimation uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31 March 2016 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings, infrastructure and Vehicles, Plant and Equipment would increase by £707k for every year that useful lives had to be reduced
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the authority with expert advice about the assumptions to be applied.	The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.5% increase in the discount rate assumption would result in a decrease in the pension liability of £342,890.
Business Rates Appeals	The Authority has recognised a provision for Business Rates of £2.069million as a result of the localisation of business rates. This provision is calculated using information provided by the Valuation Office and using experience of previous success rates.	If Business Rates appeals' success rates were underestimated by 10%, the liability would increase by £206,900.
Arrears	At 31 March 2016, the Authority had a balance for sundry debtors of £2.387million. A review of significant balances suggested that an impairment of doubtful debts of £801k was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient.	If collection rates were to deteriorate, a doubling of the amount of the impairment of doubtful debts would require an additional £801k to set aside as an allowance.

4. Exceptional items of income and expenditure

There were no exceptional items of income and expenditure during 2015/16.

5. Events after the Balance Sheet date

The EU Referendum took place on the 23rd June 2016. In Line with IAS10 we are disclosing this, but at this time there is uncertainty as to the effect this will have and as a result is unquantifiable.

The Statement of Accounts was authorised for issue by the Assistant Director - Finance & Corporate Services on 26 July 2016. Events taking place after this date are not reflected in the financial statements or notes.

6. Adjustments between accounting basis and funding basis under regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against:

General Fund Balance
The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

Capital Receipts Reserve
The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied
The Capital Grants Unapplied Account holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

13. Property, Plant and Equipment valuation

All propery, plant and equipment owned by South Somerset District Council have been valued on a five year rolling programme by an external independent valuer. This year the external independent valuer was Hannah Plowman, MRICS, District Valuer – in accordance with the Statements of Asset Valuation Practice and Guidance Notes of The Royal Institute of Chartered Surveyors. Not all assets are inspected each year, as this is neither practicable nor considered by the valuer to be necessary for the purposes of the valuation. The basis of valuation is as set out in the Statement of Accounting Policies. The effective date of revaluation is 31st December 2015. This has changed from the 1st April 2015 to give a more accurate valuation of assets at the balance sheet date.

The Authority has been given assurance by the external independent valuer that the carrying value of assets not revalued within year is not materially different to the fair value of the assets.

The following table shows the progress of the rolling programme:

	Land and Buildings	Vehicles, Plant and Equipment	Infra-structure Assets	Com-munity Assets	Surplus Assets	Total
	£'000	£'000	£'000	£'000	£'000	£'000
Valued at historical cost			865	694		1,559
Valued at current value at:						
1st April 2010	0	0				0
1st April 2011	103	21				124
1st April 2012	2,038	230				2,268
1st April 2013	3,914	710				4,624
1st April 2014	13,963	236				14,199
31st December 2015	34,417	1,731			60	36,208
Total	**54,435**	**2,928**	**865**	**694**	**60**	**58,982**

14. Capital commitments

There were no significant capital contracts that South Somerset District Council had entered into as at the 31 March 2016

15. Construction contracts

At 31 March 2016 the Authority had no construction contracts in progress.

16. Intangible assets

The Authority accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include software. All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Authority. Software assets are assigned useful lives of between 3 and 5 years.

The movement on Intangible Asset balances during the year is as follows:

	31 March 2015	31 March 2016
	£'000	£'000
Balance at start of year:		
• Gross carrying amounts	537	571
• Accumulated amortisation	(375)	(434)
Net carrying amount at start of year	**162**	**137**
Additions	34	50
Disposals	0	(46)
Amortisation for the period	(59)	(60)
Amortisation on disposal	0	46
Net Carrying amount at end of year	**137**	**127**
Comprising:		
• Gross carrying amounts	571	283
• Accumulated amortisation	(434)	(156)
Total Intangible Assets	**137**	**127**

17. Assets Held for Sale

31 March 2015 £'000		31 March 2016 £'000
0	Balance at start of year	0
0	Reclassification	34
0	Revaluations / (Impairments)	0
0	**Total Assets Held for Sale**	**34**

18. Heritage assets

31 March 2015 £'000		31 March 2016 £'000
1,619	Balance at start of year	1,743
124	Revaluations / (Impairments)	5
1,743	**Total Heritage Assets**	**1,748**

19. Long and short term investments

The investments as at 31 March 2016 consist of:

31 March 2015 £'000		31 March 2016 £'000
	Long Term Investments	
8,399	Bonds, Certificates of Deposit and Pooled funds	7,244
0	Term Deposits > I year to maturity	0
2	Government Stocks	0
8,401	**Total Long Term Investments**	**7,244**
	Short Term Investments	
21,722	Bonds, Certificates of Deposit and Pooled Funds < 1 year to maturity	20,493
15,500	Term Deposits < 1 year to maturity	20,000
37,222	**Total Short Term Investments**	**40,493**
45,623	**Total Investments**	**47,737**

20. Long term debtors

Debtors which fall due after a period of at least one year, consist of:

31 March 2015 £'000		31 March 2016 £'000
2	Loans agreed by SSDC	182
22	Mortgages	14
287	Right to receipts - long term lease	284
54	Car/bike/learning loans	58
14	Other Long Term Debtors	0
379	**Total Long Term Debtors**	**538**

Further information relating to long term debtors is contained within Note 28 on Financial Instruments.

21. Short-term debtors

31 March 2015 £'000		31 March 2016 £'000
329	Central Government Bodies	3,320
208	Other Local Authorities	529
0	NHS Bodies	56
0	Public Corporations and Trading Funds	0
4,815	Other Entities and Individuals	4,754
5,352	**Total Short-term Debtors**	**8,659**

22. Cash and cash equivalents

Cash and cash equivalents are investments which are readily convertible (within 24 hours) and are subject to an insignificant risk of changes in value. The balance of Cash and Cash Equivalents is made up of the following elements:

31 March 2015 £'000		31 March 2016 £'000
8	Cash held by the Authority	8
(922)	Bank current accounts	(951)
3,720	Short-term deposits with Business Reserve accounts and Money Market Funds	1,490
2,806	**Total Cash and Cash Equivalents**	**547**

23. Short-term creditors

31 March 2015 £'000		31 March 2016 £'000
(2,306)	Central Government Bodies	(244)
(684)	Other Local Authorities	(3,678)
(5)	NHS Bodies	0
(3,402)	Other Entities and Individuals	(2,847)
(6,397)	**Total Short-term Creditors**	**(6,769)**

24. Long term liabilities - creditors

31 March 2015 £'000		31 March 2016 £'000
(104)	Other Entities and Individuals	(67)
(104)	**Total Long-term Liabilities - Creditors**	**(67)**

The long-term liabilities - creditors relates to garden waste income for 2015/16 which was paid in advance.

25. Provisions

31 March 2015 £'000		31 March 2016 £'000
(1,679)	Business Rates Provisions for Appeals	(1,993)
0	MMI Provision	(76)
(1,679)	**Total Provisions**	**(2,069)**

26. Developers contribution deferred

31 March 2015 £'000		31 March 2016 £'000
(2,719)	Balance at start of year	(2,292)
(383)	Additional Deposits	(1,610)
810	Applied Deposits	680
(2,292)	**Total Developers Contribution Deferred**	**(3,222)**

Deposits received from developers will be spent over the next few years as the individual schemes progress.

27. Usable reserves

31 March 2015 £'000		31 March 2016 £'000
(6,047)	General Fund Balance	(8,267)
(10,748)	Earmarked Reserves	(13,063)
(35,659)	Capital Receipts Reserve	(34,989)
(266)	Capital Grants Unapplied	(518)
(597)	Authority's Share of Joint Operation	(600)
(53,317)	**Total Usable Reserves**	**(57,437)**

Capital Receipts Reserve

31 March 2015 £'000		31 March 2016 £'000
(36,396)	Balance of Usable Receipts at 1 April	(35,659)
(1,207)	Receipts from Sale of Assets	(1,141)
1,938	Receipts applied to finance Capital Expenditure	1,804
6	Amount payable to the housing capital receipt pool	7
(35,659)	**Total Capital Receipts Reserve**	**(34,989)**

The capital receipts reserve holds the proceeds from the sale of capital assets and is used for financing capital expenditure

Capital Grants Unapplied

31 March 2015 £'000		31 March 2016 £'000
(363)	Balance at start of year	(266)
(45)	Additional Capital Grants recognised through Comprehensive Income and Expenditure Statement	(286)
142	Applied Deposits	34
(266)	**Total Capital Grants Unapplied**	**(518)**

The capital grants unapplied reserve holds any capital grant received but not yet spent

Transfers to/from earmarked reserves

This note sets out the amounts set aside from the General Fund in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund expenditure in 2015/16. All earmarked reserves are revenue balances.

269	Accumulating Compensated Absences Adjustment Account	253
29,920	**Total Unusable Reserves**	**19,203**

Revaluation Reserve

The Revaluation Reserve holds the unrealised revaluation gains which have arisen, since 1 April 2007, from holding plant, property and equipment. Where assets which had previously been revalued are impaired as a result of reductions in property values, then the revaluation reserve is reduced to the extent of the value held for that specific asset.

31 March 2015 £'000		31 March 2016 £'000
(16,186)	Balance at start of year	(18,421)
(2,966)	Revaluation gains on non-current assets	(2,844)
385	Downward revaluation on non-current assets	834

346	Current value depreciation transferred to Capital Adjustment Account	431
(18,421)	**Total Revaluation Reserve**	**(19,992)**

Available-for-Sale Financial Instruments Reserve

The Available-for-Sale Financial Instruments Reserve holds the gains and losses arising from the policy of carrying Available-for-Sale Financial Instruments at fair value.

31 March 2015 £'000		31 March 2016 £'000
(45)	Balance at start of year	(406)
0	Loss on derecognition/maturity	0
(361)	Revaluation gains/(losses) on available for sale financial instruments reserve	(101)
(406)	**Total Available-for-Sale Financial Instruments Reserve**	**(507)**

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisation are charged to the Comprehensive Income and Expenditure Statement, with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis.

The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisitions, construction and enhancement. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. Note 5 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

31 March 2015			31 March 2016

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account holds the accumulated difference between the financing costs included in the Comprehensive Income and Expenditure Statement and the accumulated financing costs required in accordance with regulations to be charged to the General Fund Balance

31 March 2015 £'000		31 March 2016 £'000
(50)	Balance at start of year	(34)
7	Soft Loans advanced revalued to Net Present Value	0
(6)	Interest on Soft Loans credited to Comprehensive Income & Expenditure Statement	0
	Change in Accounting Policy - adjustment regarding soft loans*	(10)
15	Discount on early repayment of loan	15
(34)	**Total Financial Instruments Adjustment Account**	**(29)**

***** The Council has changed the accounting policy on dealing with the interest free loans to staff. Previously, the Council would have made a "soft loan" adjustment which records a loss in the Comprehensive Income and Expenditure Statement (charged to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument resuting in a lower amortised cost than the outstanding principal. It is now considered that the amounts are not material, so the adjustment is no longer necessary.

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs.

However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

31 March 2015 £'000		31 March 2016 £'000
61,814	Balance at start of year	80,302
15,302	Remeasurements of the net defined benefit liability	(15,144)
5,498	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provisions of Services in the Comprehensive Income and Expenditure Statement	5,976
(2,312)	Employer's pensions contributions and direct payments to pensioners payable in year	(2,556)
80,302	**Total Pensions Reserve**	**68,578**

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

31 March 2015 £'000		31 March 2016 £'000
517	Balance at start of year	194
(72)	Collection Fund Adjustment in year for Council Tax	27
(251)	Collection Fund Adjustment in year for non-domestic rates	2,682
194	**Total Collection Fund Adjustment Account**	**2,903**

Accumulating Compensated Absences Adjustment Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfer to or from the Account.

31 March 2015 £'000			31 March 2016 £'000	
	290	**Balance at start of year**		269
(290)		Settlement or cancellation of accrual made at the end of preceding year	(269)

	(21)	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		(16)
	269	**Total Accumulating Compensated Absences Adjustment Account**		**253**

29. Financial instruments

The authority's accounting policies relating to financial instruments are in accordance with the 2015/16 Code of Practice on Local Authority Accounting.

Financial Instruments Balances

The financial assets and financial liabilities are made up of the following categories of financial instruments.

31 March 2015			31 March 2016	
Long Term £'000	**Current £'000**		**Long Term £'000**	**Current £'000**
		Investments		
379	15,651	Loans & Receivables	538	20,071
8,401	21,722	Available-for-sale financial assets	7,244	20,493
8,780	**37,373**	**Total Investment**	**7,782**	**40,564**
		Debtors		
0	555	Loans and Receivables		616
0	**555**	**Total Debtors**		**616**
		Financial Liabilities at amortised cost		
(104)	(1,492)	Trade Creditors	(67)	(2,806)
0	(316)	Capital Creditors		(110)
(186)	(148)	Finance Lease	(94)	(136)
(290)	**(1,956)**	**Total Financial Liabilities at amortised cost**	**(161)**	**(3,052)**

Financial Instruments Gains/Losses

The gains and losses recognised in the Comprehensive Income & Expenditure Statement in relation to financial instruments are made up as follows:

31 March 2016	**Financial Liabilities**	**Financial Assets**		**Total**
	Liabilities measured at amortised cost £'000	**Loans and receivables £'000**	**Available-for-sale assets £'000**	**£'000**
Interest expense	21			
Losses on derecognition				
Interest payable and similar charges	**21**			**21**
Interest income		155	438	
Gains on derecognition			1	
Interest and investment income		**155**	**439**	**594**
Gains on revaluation			(145)	
Losses on revaluation			43	
(Surplus)/Deficit arising on revaluation of financial assets			**(102)**	
Total Net (gain)/loss for the year	**21**	**155**	**337**	

For the purpose of comparison, the gains and losses recognised in the Comprehensive Income & Expenditure Statement in relation to financial instruments for 2014/15 are made up as follows:

31 March 2015	Financial Liabilities	Financial Assets		Total
	Liabilities measured at amortised cost £'000	Loans and receivables £'000	Available-for-sale assets £'000	£'000
Interest expense Losses on derecognition	26			
Interest payable and similar charges	**26**			**26**
Interest income Gains on derecognition		370	221 1	
Interest and investment income		**370**	**222**	**592**
Gains on revaluation Losses on revaluation			(379) 18	
(Surplus)/Deficit arising on revaluation of financial assets			**(361)**	
Total Net (gain)/loss for the year	**26**	**370**	**(139)**	

Financial Instruments - Fair Values

Financial assets classified as available for sale are carried in the Balance Sheet at fair value. For most assets, including bonds, treasury bills and shares in money market funds and other pooled funds, the fair value is taken from the market price. The fair values of other instruments have been estimated calculating the net present value of the remaining contractual cash flows at 31st March 2016 using the following methods and assumptions:

- Certificates of deposit have been discounted at market interest rates for instruments of similar credit quality and remaining term to maturity.

Financial assets classified as loans and receivables are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31st March 2016. The fair value of short-term instruments, including trade payables and receivables, is assumed to approximate to the carrying amount.

Financial Instruments - Risk

The authority has adopted CIPFA's code of practice on Treasury Management and complies with the Prudential Code for Capital Finance in Local Authorities.

As part of the adoption of the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year. The Strategy sets out the parameters for the management of risks associated with financial instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to be followed to manage these risks.

The Treasury Management Strategy includes an Annual Investment Strategy in compliance with the Communities and Local Government Guidance on Local Government Investments. This guidance emphasises that priority is to be given to security and liquidity, rather than yield. The Council's Treasury Management Strategy and its Treasury Management Practices are based on seeking the highest rate of return consistent with the proper levels of security and liquidity.

The authority's activities expose it to a variety of financial risks:

- Credit risk - the possibility that one party to a financial asset will fail to meet its contractual obligations causing a loss to the Council.
- Liquidity risk - the possibility that the Council might not have the cash available to make contracted payments on time.
- Market risk - the possibility that an unplanned financial loss will materialise because of changes in market variables such as interest rates or equity prices.

Credit Risk: Investments

The Council manages credit risk by ensuring that investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, the UK government, other local authorities, and organisations without credit ratings upon which the Council has received independent investment advice. Recognising that credit ratings are imperfect predictors of default, the Council has regard to other measures including credit default swap and equity prices when selecting commercial entities for investment.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies of £29,500,000 cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but the was no evidence at the 31 March 2016 that this was likely to crystallise.

The table below summarises the credit risk exposures of the Council's investment portfolio by credit rating.

Credit Rating	**Long Term**		**Short Term**	
	31/03/2016	31/03/2015	31/03/2016	31/03/2015
	£'000	**£'000**	**£'000**	**£'000**
AAA	6,500	5,500	9,990	3,220
AA+				4,000
AA				
AA-		1,000	8,000	11,301
A		1,000	8,000	5,900
A-	500	500	331	4,950
Unrated Local Authorities			11,000	8,000
Unrated Pooled Funds			4,000	3,000
Total Investments (nominal Amount)	**7,000**	**8,000**	**41,321**	**40,371**

Exposure to default and non-collection

Over the past five years there has been no historical experience of default on deposits with banks and financial institutions or bonds. Therefore our estimated maximum exposure to default and non collection as at 31 March 2016 for these investments is nil. (Nil for 2014/15). Customers are assessed taking into account their financial position, past experience and other factors.

The following analysis summarised the authority's potential maximum exposure to credit risk, based on experience of default and non collection over the last five financial years, adjusted to reflect current market conditions.

Estimated maximum exposure at 31 March 2015 £'000		Nominal Amount invested at 31 March 2016 £'000	Historical experience of default %	Historical experience adjusted for market conditions at 31 March 2016 %	Estimate maximum exposure to default and non collection at 31 March 2016 £'000
0	Deposits with Banks & Financial Institutions	20,990			
0	Deposits with other Local Authorities	11,000			
0	Bonds/Gilts	16,331			
620	Customers	2,536	28.45	28.45	721
620	**Total maximum exposure to default and non collection**	**50,857**	**28.45**	**28.45**	**721**

Liquidity Risk

South Somerset District Council ensure it has adequate, though not excessive, cash resources, borrowing arrangements, overdraft or standby facilities to enable it at all times to have the level of funds available to it which are necessary for the achievement of its business/service objectives.

Market risk – Interest rate risk

The authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For instance, a rise in interest rates would have the following effects:

Borrowings at variable rates - the interest expense charged to the Comprehensive Income and Expenditure Statement will rise

Borrowings at fixed rates - the fair value of the liabilities borrowings will fall

Investments at variable rates - the interest income credited to the Comprehensive Income and Expenditure Statement will rise

Investments at fixed rates - the fair value of the assets will fall

Investments classed as "loans and receivables" and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus and Deficit on the Provision of Services. Movement in the fair value of fixed rate investments classed as "available for sale" will be reflected in Other Comprehensive Income and Expenditure.

The Treasury Management Strategy aims to mitigate these risks by setting upper limits on its net exposures to fixed and variable interest rates.

According to this assessment strategy, at 31 March 2016, if interest rates had been 1% higher with all other variables held constant, there would have been an increase in interest receivable on investments of approximately £596,348.

Market risk – Price risk

The market prices of the Council's fixed rate bond investments and its units in pooled bond funds are governed by prevailing interest rates and the market risk associated with these instruments is managed alongside interest rate risk.

The Council's investment in a pooled property fund and pooled equity funds are subject to the risk of falling commercial property prices or falling share prices. This risk is limited by the Council's maximum exposure to pooled funds of £4m nominal value per fund. A 5% fall in commercial property prices or share prices would result in a £200k charge to Other Comprehensive Income and Expenditure - this would have not impact on the General Fund until the investments were sold.

Market risk – Foreign exchange risk

The authority has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates. The Eurobonds held by the Authority are denominated in Pound Sterling.

30. Cash flow statement - operating activities

The cash flows for operating activities include the following items:

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
860	Interest received	1,040
(26)	Interest paid	(21)
834	**Net Cash Flows from Operating Activities Relating to Interest**	**1,019**

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
2,002	Depreciation and amortisation	1,971
1,370	Impairment and downward valuations	339
2,336	Increase/decrease in creditors	338
11	Increase/decrease in debtors	(1,351)
(7)	Increase/decrease in inventories	(8)
3,186	Movement in pension liability	3,420
214	Carrying amounts of non-current assets and non-current assets held for sale, sold or derecognised	47
728	Contributions to/from provisions	390
506	Other non-cash items charged to the net surplus or deficit on the provision of services	447
10,346	**Total Adjustments for Non-Cash Movements**	**5,593**

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
(1,186)	Proceeds from the sale of property, plant and equipment and intangible assets	(1,129)
(947)	Any other items for which the cash effects are investing or financing cash flows	(1,263)
(2,133)	**Total Adjustments for Investing and Financing Activities**	**(2,392)**

31. Cash flow statement - investing activities

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
(1,635)	Purchase of property, plant and equipment, investment property and intangible assets	(1,874)
(89,615)	Purchase of short-term and long-term investments	(100,863)
(503)	Other payments for investing activities	(224)
1,204	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	1,141
79,775	Proceeds from sale of short-term and long-term investments	98,409
1,144	Other receipts from investing activities	2,384
(9,630)	**Net Cash Flows from Investing Activities**	**(1,027)**

32. Cash flow statement - financing activities

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
15	Cash receipts of short and long-term borrowing	15
159	Other receipts from financing activities	0
(178)	Cash payments for the reduction of the outstanding liabilities relating to finance leases	(170)
0	Other payments for financing activities	(1,856)
(4)	**Net Cash Flows from Financing Activities**	**(2,011)**

33. Amounts reported for resource allocation decisions

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Best Value Accounting Code of Practice. However, decisions about resource allocation are taken by the Authority's Executive on the basis of budget reports analysed across directorates. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to the services in the Comprehensive Income and Expenditure Statement)
- The cost of retirement benefits is based on cash flows (payment of employer's pensions contributions) rather than current service cost of benefits accrued in the year.
- expenditure on some support services is budgeted for centrally and not charged to directorates.

The income and expenditure of the Authority's principal directorates recorded in the budget reports for the year is as follows:

Directorate Income and Expenditure 2015/16	Chief Executive Directorate £'000	Operations & Customer Focus £'000	Place & Performance £'000	TOTAL £'000
Fees, charges & other service income	(2,240)	(9,729)	(2,006)	(13,975)
Government Grants	(48,067)	(1,137)	(89)	(49,293)
Total Income	**(50,307)**	**(10,866)**	**(2,095)**	**(63,268)**
Employee expenses	5,238	6,924	3,321	15,483
Other service expenses	49,864	13,449	1,451	64,764
Total Expenditure	**55,102**	**20,373**	**4,772**	**80,247**
Net Expenditure	**4,795**	**9,507**	**2,677**	**16,979**

Directorate Income and Expenditure 2014/15	Chief Executive Directorate £'000	Operations & Customer Focus £'000	Place & Performance £'000	TOTAL £'000
Fees, charges & other service income	(2,098)	(9,535)	(2,338)	(13,971)
Government Grants	(48,098)	(959)	(55)	(49,112)
Total Income	**(50,196)**	**(10,494)**	**(2,393)**	**(63,083)**
Employee expenses	5,041	6,735	3,534	15,310
Other service expenses	49,955	13,177	1,118	64,250
Total Expenditure	**54,996**	**19,912**	**4,652**	**79,560**
Net Expenditure	**4,800**	**9,418**	**2,259**	**16,477**

Reconciliation of Directorates' Income and Expenditure to Cost of Services in the Comprehensive Income and Expenditure Statement

This reconciliation shows how the figures in the analysis of directorate income and expenditure relate to the amounts included in the Comprehensive Income and Expenditure Statement.

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
16,477	Net expenditure in the Directorate Analysis	16,979
5,148	Amounts reported to management not included on Costs of Services in Compehensive Income and Expenditure Statement	4,379
21,625	**Cost of Services in Comprehensive Income and Expenditure Statement**	**21,358**

Reconciliation to Subjective Analysis

This reconciliation shows how the figures in the analysis of directorate income and expenditure relate to a subjective analysis of the Surplus or Deficit on the Provision of Services included in the Comprehensive Income and Expenditure Statement.

2015/16	Directorate Analysis	Amounts not reported to management for decision making	Amounts not included in CIES	Allocation of Recharges	Cost of Services	Corporate Amounts	Total
	£'000	£'000	£'000	£'000	**£'000**	£'000	**£'000**

34. Trading operations

The Council operates a number of trading activities. The financial results of these activities are as follows:

Previous Year		Current Year		
2014/15 (Surplus)/Deficit £'000		2015/16 Expenditure £'000	2015/16 Income £'000	2015/16 (Surplus)/ Deficit £'000
306	Properties	342	(285)	57
6	Markets	46	(32)	14
72	Catering	154	(86)	68
(80)	Careline	294	(380)	(86)
304	**Total Trading Accounts**	**836**	**(783)**	**53**

35. Members' Allowances

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
376	Basic Allowance	382
121	Special Responsibility Allowance	122
15	Expenses	42
512	**Total Members Allowance**	**546**

Further information on Members' allowances is available on our website and may also be obtained from the Human Resources department.

36. Officers' Remuneration

During the 2015/16 financial year the number of officers who received remuneration, which includes salary, leased car and termination payments, in excess of £50,000 were as follows:

Number of Employees 2014/15			Remuneration Band	Number of Employees 2015/16		
Total	Left during year	Compensation for loss of office		Total	Left during year	Compensation for loss of office
3			£50,000 - £54,999	4		
1			£55,000 - £59,999	1		
3			£60,000 - £64,999	3		
			£65,000 - £69,999			
2			£70,000 - £74,999	1		
			£75,000 - £79,999	1		
			£80,000 - £84,999			
			£85,000 - £89,999			
			£90,000 - £94,999			
2			£95,000 - £99,999	1		
			£100,000 - £104,999	1		

The table above includes the remuneration for Senior Officers as detailed overleaf. No employees included in the above table received any termination payments.

Senior Officers

A senior officer is an employee whose salary is more than £150,000 per year, or one whose salary is at least £50,000 (to be calculated pro rata for a part-time employee) and who are either the designated head of paid services, a statutory officer and any person having responsibility for the management of the relevant body, to the extent that the person has power to direct or control the major activities of the body.

Senior employees are typically an authority's Chief Executive (or equivalent), officers that report directly to them (other than administration staff), and statutory chief officers. For South Somerset District Council, the senior employees are the Strategic Directors and the Assistant Directors with statutory roles.

Senior Officers' Emoluments

Current Year 2015/16 Post Title	Name of officer	Salary (including Fees & Allowances) £'000	Benefits in kind £'000	Total Remuneration (excl. Pension Contribution) £'000	Pension Contributions £'000	Total Remuneration (inc. Pension Contribution) £'000
Chief Executive	M Williams	20	2	22	4	26

Previous Year 2014/15 Post Title	Name of officer	Salary (including Fees & Allowances) £'000	Benefits in kind £'000	Total Remuneration (excl. Pension Contribution) £'000	Pension Contributions £'000	Total Remuneration (inc. Pension Contribution) £'000
Chief Executive	M Williams	61	5	66	12	78

Mr Williams joined South Somerset District Council as a joint Chief Executive, of both South Somerset District Council and East Devon District Council, on 22 March 2010 with a 50% contribution to East Devon District Council, as he is paid by that authority. This arrangement came to an end in July 2015 hence the reduction in remuneration.

Current Year 2015/16 Post Title	Salary (including Fees & Allowances) £'000	Expense Allowance £'000	Total Remuneration (excl. Pension Contribution) £'000	Pension Contributions £'000	Total Remuneration (inc. Pension Contribution) £'000

TOTAL	**0**	**0**	**4**	**1**	**4**	**1**	**46**	**18**

Termination Benefits

The authority terminated the contracts of 1 employee in 2015/16, incurring liabilities of £18,000 (£46,000 in 2014/15). These officers were made redundant as part of of the Authority's rationalisation of services.

37. Audit costs

In 2015/16 South Somerset District Council incurred the following fees relating to external audit and inspection:

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
66	Fees payable to Grant Thornton with regard to external audit services carried out by the appointed auditor	50
11	Fees payable to Grant Thornton for the certification of grant claims and returns	14
20	Fees payable in respect of other services provided by Grant Thornton	0
2	Fees payable in respect of other services provided by the Audit Commission	0
99	**Total Audit Costs**	**64**

38. Long term contracts

South Somerset District Council has entered into the following long-term contracts for the provision of core services.

Contractor	Services Provided	Date of Expiry of Contract	Payments 2015/16 £'000	Ongoing Commitment £'000
LED	Leisure Service	March 2019	40	46
The Hub	Resource Centre	September 2015	21	0
Somerset Waste Partnership	Refuse Collection and Support Services	October 2021	4,856	23,112
South West Audit Partnership	Internal Audit	On-going	104	94 per year *

* The South West Audit Partnership from 1st April 2013 became a company limited by guarantee. The current contract is on-going and requires a one year notice period to terminate.

39. Grant income

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2015/16.

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
962	Capital Grants	1,278
3,562	New Homes Bonus	4,002
49	Business Support Scheme	0
214	Troubled Families	0
224	Cost of Collection - Business Rates	225
103	Homelessness Grants	105
156	Miscellaneous Grants	535
5,270	**Total Other Government Grants**	**6,145**
45,427	Housing Benefits	46,069
3,767	Revenue Support Grant (UK Government)	2,708
54,464	**Total Government Grants**	**54,922**

40. Related party transaction

The Council is required to disclose any significant transactions with related parties.

Precepts from Other Local Authorities are detailed on page 69 in Note 1 to the Collection Fund and receipts received from the UK Central Government (which exerts significant influence through legislation and grant funding) are detailed above in Note 38 to the Core Financial Statements.

Transactions to and from the Pension Fund are detailed on pages 62 to 66 in Note 44 to the Core Financial Statements.

The Council makes significant contributions to the organisations listed below. Councillors have either been nominated to represent SSDC on their management boards or have declared a position of general control or influence in the organisation.

The Council is part of a joint operation called Lufton 2000, with Abbey Manor Developements Ltd, to purchase and develop 30 acres of industrial land at Lufton. The initial contribution was £350,500 in 1999/2000. In 2015/16, £0 was paid out towards the development of the land for phase III of the project. The draft unaudited accounts of the joint operation for the year ended 31 March 2016 disclose net assets of £1,201,000 and a net profit of £7,000. The shares are jointly held with SSDC and Abbey Manor Developements Ltd each holding a 50% interest. A copy of these accounts may be obtained from the Council by telephoning 01935 462462.

South Somerset District Council is a Member of South West Audit Partnership which is a company limited by guarantee and is wholly owned and controlled, as an in-house company, by the members and is a local authority controlled company for the purposes of Part V of the Local Government and Housing Act 1989. The liability of each member is limited to £1, being the amount that each member undertakes to contribute to the assets of the Company in the event of it being wound up while the Authority is a member or within one year after the Authority ceases to be a member. South West Audit Partnership provides internal audit services. Further details can be found in note 37 on page 59.

Somerset Waste Partnership is a partnership that manages the waste and recycling services on behalf of the Somerset Authorities. It was created in 2007. Further details can be found in note 37 on page 59.

Organisation	SSDC Contribution in 2015/16	SSDC Councillor
Board of Governors for Yeovil District Hospital NHS Foundation Trust	£10,427 South Somerset Together Project and Panto Collection	Cllr D Recardo
LGA General Assembly	£14,807 subscription & property searches litigation	Cllr R Pallister
Parrett Drainage Board	£64,523 as a special levy and grant	Cllr M Lewis Cllr J Roundell Greene Cllr N Weeks
South West Audit Partnership	£101,920 audit fees	Cllr T Inglefield
South West Councils	£21,782 subscription and whistleblowing investigation	Cllr S Seal
Wincanton Community Venture (Balsam Centre)	£10,000 Grant	Cllr A Groskop

41. Capital expenditure and financing

Previous Year 2014/15			Current Year 2015/16	
£'000	£'000		£'000	£'000
	9,625	**Opening Capital Financing Requirement**		9,447

		Sources of Finance		
(1,938)		Use of Capital Receipts	(1,804)	
(1,059)		Government Grants & Other Contributions	(1,026)	
(803)		Capital expenditure charged against the capital fund	(427)	
(178)		Minimum Revenue Provision	(170)	
	(3,978)			(3,427)
	9,447	**Closing Capital Financing Requirement**		9,342

42. Leases

Authority as Lessee

Finance Leases
The Council has acquired a number of vehicles and printers under finance leases

The assets acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

31 March 2015 £'000		31 March 2016 £'000
310	Vehicles, Plant, Furniture and Equipment	222
310	**Total Carrying Amount of Leases**	**222**

The Authority is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

31 March 2015 £'000		31 March 2016 £'000
334	Finance lease liabilities (net present value of minimum lease payments)	230
12	Finance Cost Payable in future years	17
346	**Total Minimum Lease Payments**	**247**

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	31 March 2015 £'000	31 March 2016 £'000	31 March 2015 £'000	31 March 2016 £'000
Not later than one year	155	102	148	94
Later than one year and not later than five years	191	134	186	126
Later than five years	0	11	0	10
Total Finance Lease Payments	**346**	**247**	**334**	**230**

Operating Leases

The future minimum lease payments due under non-cancellable leases in future years are:

31 March 2015 £'000				31 March 2016 £'000		
Vehicles, Plant & Equipment	Property	**Total**		Vehicles, Plant & Equipment	Property	**Total**
0	23	**23**	Not later than one year	21	22	**43**
0	92	**92**	Later than one year and not later than five years	63	90	**153**
0	942	**942**	Later than five years		915	**915**
0	**1,057**	**1,057**	**Total Operating Lease Payments**	**84**	**1,027**	**1,111**

The expenditure charged to services in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
	Minimum lease payments	
92	• Vehicles, Plant and Equipment	109
49	• Property	38
141	**Total Operating Lease Payments Charged to the Comprehensive Income and Expenditure Statement**	**147**

Authority as Lessor

Operating Leases

The Council leases out property and equipment under operating leases for economic development purposes to provide suitable affordable accommodation for local businesses.

The Council has granted leases in respect of a number of properties (principally commercial premises and business units) which are treated as operating leases. Rental income in respect of these properties for 2015/16 totalled £612,000 (2014/15 £452,000).

43. Impairment losses

During 2015/16, the Authority recognised a net impairment loss of £1,113,000 (£1,756,000 in 2014/15). This was made up of £1,814,000 reduction in value and £701,000 of reversing previous impairment losses.

The impairment losses of £279,000 have been charged to various service lines on the Comprehensive Income and Expenditure Statement and downward revaluation of £834,000 has been charged to the Revaluation Reserve.

44. Defined benefit pension schemes

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers and other employees, the authority offers retirement benefits. Although these benefits will not actually be payable until employees retire, the authority has a commitment to make the payments at the time that employees earn their future entitlement.

South Somerset District Council participates in the Local Government Pension Scheme (LGPS) for employees, administered by Peninsual Pensions – this is a funded defined benefit scheme, meaning that the authority and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets. The benefits accrued up to 31 March 2016 are based on final salary and length of service on retirement. Changes to the LGPS came into effect from 1 April 2014 and any benefit accrued from this date will be based on career average revalued salary.

Transactions Relating to Post-Employment Benefits

SSDC recognise the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are actually paid as pensions. However, the charge SSDC is required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund Balance via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

Previous Year 2014/15			Current Year 2015/16	
£'000	£'000		£'000	£'000
		Comprehensive Income and Expenditure Statement		
		Cost of Services:		
2,689		• Current service costs	3,313	
48		• Past service and curtailment costs	0	
30		• Administration Expenses	55	
	2,767			3,368
		Financing and Investment Income and Expenditure:		
5,986		• Interest Cost	5,243	
(3,255)		• Return on Assets	(2,635)	
	2,731			2,608
	5,498	**Total Post Employment Benefit charged to the Comprehensive Income and Expenditure Statement**		**5,976**
		Other post employment benefit charged to the Comprehensive Income & Expenditure Statement		
		Remeasurement of the net defined benefit liability comprising:		
	(6,128)	Return on plan fund assets in excess of interest		1,862
	21,440	Change in financial assumptions		(17,049)
	0	Change in demographic assumptions		0
	(10)	Experience gain on defined benefit obligation		43
	0	Other actuarial (gains)/losses on assets		0
	15,302	**Total remeasurement of net defined benefit liability**		**(15,144)**
	20,800	**Total post employment benefit charged to the Comprehensive Income and Expenditure Statement**		**(9,168)**
		Movement in Reserves Statement		
		Reversal of net charges made to the surplus or deficit for the provision of services for post employment benefits in accordance with the code		
		Actual amount charged against the General Fund Balance for pensions in the year:		
(2,079)		• Employer's contributions payable to scheme	(2,326)	
(233)		• Retirement benefits payable to pensioners	(230)	
	(2,312)			**(2,556)**

The change in financial assumptions reflects an increase in the discount rate from 3.3% to 3.7%. The discount rate is based on corporate bond yields that match the duration of the employers liabilities. Although the yields have been volatile thay have increased overall which indicates a decrease in liabilities.

Assets and Liabilities in Relation to Retirement Benefits

The underlying assets and liabilities for retirement benefits attributable to the authority at 31 March 2016 are as follows:

Reconciliation of the Present Value of Scheme Liabilities and the Fair Value of Scheme Assets to the Liabilities and Assets on the Balance Sheet

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
157,501	Present value of Funded Obligation	145,417
(80,496)	Fair Value of Assets in Scheme	(79,933)
77,005	**Net Liability**	65,484
3,297	Present Value of Unfunded Obligation	3,094
80,302	**Closing Balance at 31 March**	**68,578**

The liabilities show the underlying commitments that the authority has in the long-run to pay retirement benefits. The total liability of £68,578,000 has a substantial impact on the net worth of the authority as recorded in the balance sheet, resulting in an overall balance of £38,151,000. However, statutory arrangements for funding the deficit mean that the financial position of the authority remains healthy. The deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees, as assessed by the scheme actuary.

Reconciliation of Present Value of the scheme liabilities

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
135,332	Opening Balance at 1 April	160,797
2,689	Current service cost	3,313
5,986	Interest cost	5,243
	Remeasurement (gains) and losses:	
21,440	Actuarial gains/losses from change in financial assumptions	(17,049)
0	Actuarial gains/losses from change in demographic assumptions	0
(10)	Experience loss/(gain) on defined benefit obligation	43
(41)	Liabilities assumed/(extinguished) on settlements	0
(5,122)	Estimated benefits paid net of transfers in	(4,325)
58	Past service costs, including curtailments	0
698	Contributions by scheme participants	718
(233)	Unfunded Pension Payments	(230)
160,797	**Closing balance at 31 March**	**148,510**

Reconciliation of Fair Value of Scheme Assets

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
73,519	Opening balance at 1 April	80,496
3,255	Interest on Assets	2,635
6,128	Remeasurement gains and losses	(1,862)
(30)	Administration expenses	(55)
2,312	Contribution by the employers	2,556
698	Contributions by scheme participants	718
(5,355)	Benefits paid	(4,555)
(31)	Settlement prices received/(paid)	0
80,496	**Closing balance at 31 March**	**79,933**

The expected return on assets is based on the long-term future expected investment return for each asset class at the beginning of the period. The return on gilts and other bonds are assumed to the gilt yield and corporate bond yield respectively (with an adjustment to reflect default risk) at the relevant date. The return on equities and property is then assumed to be a margin above gilt yields.

Sensitivity Analysis

	£'000	£'000	£'000
Adjustment to discount rate	**+0.1%**	**0.0%**	**-0.1%**

Present value of total obligation	153,067	148,511	144,096
Projected service costs	3,031	2,956	2,882

Projected Pension Expense for the year to 31 March 2017

	Year to 31 March 2017 £'000
Service Cost	2,956
Net Interest on the defined liablity	2,487
Administration expenses	55
Total loss (profit)	**5,498**
Employer Contributions	**2,516**

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The Peninsula Pension Fund liabilities have been assessed by Barnett Waddingham, an independent firm of actuaries. Estimates for the Peninsula Pension Fund being based on the latest full valuation of the scheme as at 31 March 2016.

The principal assumptions used by the actuary have been:

31 March 2015		31 March 2016
2.4%	Rate of inflation (CPI)	2.4%
4.2%	Rate of general long-term increase in salaries	4.2%
2.4%	Rate of increase to pensions in payment	2.4%
2.4%	Rate of increase to deferred pensions	2.4%
3.3%	Discount rate	3.7%

Assumed life expectations from aged 65 (years) are:

	Males	Females
Current Pensioners	23.8	26.2
Future Pensioners (20 years from now)	26.1	28.5

The fair value of the total scheme assets comprises the following categories, by proportion of the total assets held:

% of total scheme as at 31 March 2015	Value of total scheme as at 31 March 2015 £'000		% of total scheme as at 31 March 2016	Value of total scheme as at 31 March 2016 £'000
70	56,126	Equity investments	69	54,788
7	5,283	Government Bonds	7	6,028
10	8,416	Corporate Bonds	11	8,818
9	7,358	Property	11	8,999
4	3,313	Cash	2	1,300
100	**80,496**		**100**	**79,933**

45. Contingent liabilities

There is a potential environmental risk in the Birchfield Park area as part of the land is an old landfill site. The site continues to be monitored and there is a bond in place with the developer to meet any liabilities resulting from the development of the road. However, there remains a residual liability of £311,000 that falls on SSDC. A specific working group manages any risks within existing revenue and capital budgets.

In transferring employees to the Somerset Waste Partnership (SWP) South Somerset agreed a guarantee of last resort to the Peninsula Pension Fund for those employees transferred to Kier. The actuarial valuation at the time assessed the maximum liability at £748,000. However it is highly unlikely that this will ever be required as the SWP has the right over vehicles and depots and the staff would transfer back to the authority.

South West Audit Partnership became a company limited by guarantee on 1st April 2013. SSDC has guaranteed the Peninsula Pension fund deficit relating to ex-employees to a value of £149,000. The nursery that was run by South Somerset District Council has now transferred to Mama Bears. The Council has guaranteed £36,000 to the Peninsula Pension fund.

46. Dorcas house trust

Dorcas House Trust (otherwise known as Portreeves or Corporation Almshouses) is a registered Charity, No 235337, whose trusteeship is vested in South Somerset District Council. The Charity is restricted to being permitted to assist 'poor women residents in the Borough of Yeovil'.

A summary of the financial activities for Dorcas house Trust is shown in the table below:

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
1	Total Income for the Year	(2)
(1)	Revaluation of Investments	0
(1)	Total Expenditure for the Year	(1)
(1)	**Deficit/(Surplus) for the Year**	**(3)**

(Brackets represent income)

Dorcas House Trust holds the following reserves:

Previous Year 2014/15 £'000		Current Year 2015/16 £'000
1	Endowment Fund	0
439	Capital & Unrestricted Funds	443
440	**Total Reserves**	**443**

The Statement of Accounts for Dorcas House Trust may be obtained by contacting the Assistant Director - Finance and Corporate Services, The Council Offices, Brympton Way, Yeovil, Somerset, BA20 2HT.

Collection Fund Account

Income and expenditure account for year ended 31 March 2016

This account reflects the statutory requirement contained in section 89 of the Local Government Finance Act 1988 (as amended by the Local Government Finance Act 1992) for billing authorities to establish and maintain a separate fund for the collection and distribution of amounts due in respect of Council Tax and National Non-Domestic Rates (NNDR).

(Brackets represent income or liabilities)

Notes to The Collection Fund

The Collection Fund is a statutory fund set up to deal with the collection and distribution of amounts due in respect of Council Tax and Business Rates. The collection fund is managed and administered by South Somerset District Council as the Billing Authority on behalf of the council tax-payers and business rate-payers within its area. All sums raised from council tax and business rates are paid into the Fund together with relevant government grants. Payments out of the fund include contributions to the national Non-Domestic Rate pool and precept payments to Somerset County Council, Police and Crime Commissioner for Avon & Somerset, Devon & Somerset Fire & Rescue Authority, South Somerset District Council and Town/Parish Councils to fund their net service requirements.

1. Income from Council tax

Council Tax income is calculated by estimating the amount of income or precept required from the Collection Fund for Somerset County Council, Police and Crime Commisioner for Avon & Somerset, Devon & Somerset Fire & Rescue Authority and South Somerset District Council.

The estimate is made by calculating a tax base and dividing the precepts by the tax base to establish the tax payable for a Band D property (properties in other bands pay a proportion of the Band D charge). The first step in calculating the tax base is to adjust the total number of properties in each band to the effective number of properties by reducing the number to allow for the number of discounts and exemptions. The effective number of dwellings is then converted to the number of Band D equivalents by applying the weighting for each band. The following table illustrates how the tax base has increased from 2015/16.

Tax Base						
Previous Year 2014/15					**Current Year 2015/16**	
Effective No of dwellings	Band D Equivalent	Weighting	Tax Band	Property Value (at April 1991)	Effective No of dwellings	Band D Equivalent
8	4	5/9ths	A-	disabled band	9	5
8,281	5,520	6/9ths	A	up to £40,000	8,286	5,524
19,570	15,221	7/9ths	B	between £40,001 & £52,000	19,670	15,299
14,290	12,702	8/9ths	C	between £52,001 & £68,000	14,358	12,763
10,423	10,423	1	D	between £68,001 & £88,000	10,669	10,669
8,309	10,156	11/9ths	E	between £88,001 & £120,000	8,370	10,230
4,333	6,259	13/9ths	F	between £120,001 & £160,000	4,351	6,284
1,690	2,816	15/9ths	G	between £160,001 & £320,000	1,723	2,871
141	282	18/9ths	H	Over £320,000	138	277
67,045	**63,383**				**67,574**	**63,922**
	(1,071)			Less adjustment for non-collection and banding reductions		(737)
	(6,171)			Less adjustment for Council Tax Reduction Scheme		(6,040)
	56,141			Council Tax Base		**57,145**

Details of the precepts are shown below

Previous Year 2014/15 £	**Precepting Authorities**	**Current Year 2015/16 £**
57,673,449	Somerset County Council	58,703,712
9,621,025	Police and Crime Commissioner for Avon & Somerset	9,987,621
4,316,667	Devon & Somerset Fire & Rescue Authority	4,481,207
8,479,239	District Council's own requirement	8,456,518
4,035,754	Total of Parish Precepts & Levies	4,191,067

The council tax for Band D, calculated by dividing the precepts by the tax base, is shown below.

Previous Year 2014/15 £	Council Tax levy at Band D	Current Year 2015/16 £
1,027.30	Somerset County Council	1,027.30
171.37	The Police & Crime Commisioner for Avon & Somerset	174.78
76.89	Devon & Somerset Fire & Rescue	78.42
150.74	South Somerset District Council	147.75
1,426.30		1,428.25
71.89	Add Town & Parish Councils (average)	73.34
1,498.19	**Average Council Tax Levy at Band D**	**1,501.59**

2. Council Tax Surplus/Deficit on collection fund

An estimate is made each January of the surplus or deficit on the collection fund in order for the County, Police Authority, Fire & Rescue Authority and the District Council to take into account when setting their precept for the following year.

3. Income collectable from business rate payers

The Council collects the Business Rates on behalf of the Government. HM Revenue & Customs assesses the Rateable Values and the Government sets the rate in the £ (or multiplier). Comparative details are shown below:

Previous Year 2014/15	Precepting Authorities	Current Year 2015/16
£111,805,386	**National Non-Domestic Rates (NNDR)** Rateable value at 31st March	£112,758,817
48.2p	NNDR rate poundage • National Multiplier	49.3p
47.1p	• Small Business multiplier	48.0p

4. Somerset Business Rate Pool

As part of the Business Rates Retention system the Government introduced a system of Levies and Safety Nets. Growth is limited by a Levy, which pays for a national Safety Net for authorities whose Business Rates base declines by more than 7.5%

The levy rate can be reduced by being part of a Business Rates Pool. The Somerset Business Rates Pool was established with effect from 1st April 2015. South Somerset District Council is a member of the Pool which consists of five other Districts and Somerset County Council and has resulted in a Pool Levy rate of 7.5% (opposed to 50.0%) enabling the council to retain more of the proceeds from growth.

The retained levy is allocated across the pool members in accordance with the Pooling Agreement. South Somerset District Council's share of the retained levy for 2015/16 was £15,000.

Annual Governance Statement

Scope of responsibility

SSDC is responsible for ensuring that:

- its business is conducted in accordance with the law and proper standards;
- public money is safeguarded and properly accounted for, and used economically, efficiently and effectively.

SSDC also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, SSDC is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

SSDC has approved and adopted a code of corporate governance, which is consistent with the principles of the CIPFA/SOLACE Framework "Delivering Good Governance in Local Government". A copy of the authority's code can be obtained on request. This statement explains how SSDC has complied with the code and also meets the requirements of the Accounts and Audit (England) Regulations 2011, regulation 4(3), which requires all relevant bodies to prepare an annual governance statement.

The purpose of the governance framework

The governance framework comprises the systems and process, and culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate services and value for money.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process that is designed to:

- identify and prioritise the risks to the achievement of SSDC's policies, aims and objectives;
- evaluate the likelihood and potential impact of those risks being realised;
- managing the risks efficiently, effectively and economically.

The governance framework has been in place at SSDC for the year ended 31 March 2016 and up to the date of approval of the statement of accounts.

The governance environment

The key elements of SSDC's governance arrangements are outlined in the Local Code of Corporate Governance. The main areas and the key areas of evidence of delivery are as follows:

Focusing on the purpose of the authority and on outcomes for the community and creating and implementing a vision for the local area

- The Council Plan sets out the priority areas for South Somerset District Council.

- Annual accounts are published on a timely basis to communicate the council's activities and achievements, its financial position and performance.

- Guidance has been produced to facilitate partnership working and a Partnership Register published and updated annually.

- All reports to be considered for approval must show a clear outline of purpose so the community can understand each committee report. All reports must have a clear outline of financial implications before consideration by members.

Members and officers working together to achieve a common purpose with clearly defined functions and roles

- The three statutory officers (Head of Paid Service, Monitoring Officer and s151 Officer) regularly meet as a Corporate Governance Group. The Monitoring Officer and s151 Officer report directly to the Head of Paid Service and are members of the senior Management Board.

- Regular weekly meetings between the Leader and Chief Executive in order to maintain a shared understanding of roles and objectives.

- Protocols developed and enforced to ensure effective communication between members and officers in their respective roles.

- Regular meetings between the Executive members and senior management.

- There is a clear scheme of delegation for officers and members within the Constitution.

- The s151 Officer leads the promotion and delivery of good financial management through Management Board, Corporate Performance Team, attendance at committees, is the lead office for the Audit Committee, and specialist workshops and training. The s151 Officer has line management responsibility for finance staff.

Promoting values for the authority and demonstrating the values of good governance through upholding high standards of conduct and behaviour

- The financial management of the Council is conducted in accordance with the rules set out in Part 4 of the Constitution.

- The Council maintains an Internal Audit Service through the South West Audit Partnership (SWAP) that operates to standards specified by the Chartered Institute of Internal Auditors (CIIA) and the CIPFA statement of the Role of the Head of Internal Audit (2010) but with some delegation within SWAP.

- There is a countywide code of conduct and this will be regularly reviewed by the Standards Committee.

- There is a voluntary Standards Committee in place with an agreed constitution containing its terms of reference.

- Regular communication is made through Staff Awareness Sessions, Insite, and Team Brief.

- A Management Charter has been introduced and signed by all Managers and compliance will be reviewed through Staff Appraisal and Development Reviews.

- A Staff Charter has been introduced.

- The Council received an IIP (Investors in People) gold award in March 2015.

Taking informed and transparent decisions which are subject to effective scrutiny and managing risk

- The Council has adopted a Constitution that sets out how it operates, how decisions are taken and the procedures to follow.
- The District Executive facilitates decision-making and its Sub Committees, four Area Committees and meetings are open to the public except where personal or confidential matters are disclosed.
- Portfolio Holders can make decisions under delegated authority and these are fully publicised. Senior officers can also take decisions under delegated authority.
- Regulation Committee determines planning applications that are referred from Area Committees.
- The Council publishes a Forward Plan that provides details of key decisions to be made by the Council and its committees.
- Area Committees also hold regular workshops where local issues are identified and discussed;
- The Council has approved a Risk Management Policy that identifies how risks are managed.
- Responsible officers are required to maintain their part of the Risk Register.
- All Assistant Directors have the following included within their job descriptions, "Lead the service(s) in a full and comprehensive understanding of risk, risk assessment and risk management as it relates to the operational areas relevant to the service(s)."
- Any Internal Audit actions showing the highest risk score of 5 will be outlined annually and monitored within the Annual Governance Statement.

Developing the capacity and capability of members and officers to be effective

- The Council looks to develop skills on a continuing basis to improve performance of officers through the Staff Development and Appraisal Review process including the use of training and development plans.
- Succession planning encourages participation and development for members and officers.
- Through a comprehensive member training and development programme.
- An induction programme is in place for all new staff and newly elected members.
- Clear job descriptions and personal specifications are in place for all roles.
- The s151 Officer and four of the finance team are qualified accountants with several years' experience. The finance function has sufficient resources within the Establishment to perform its role effectively.

Engaging the local people and other stakeholders to ensure robust public accountability

- Area Committees ensure further local accountability and local access.
- Budget consultation has been carried out for specific savings plans and equalities assessments carried out on each proposal.
- A summarised Statement of Accounts is published each year explaining the key financial areas to the public.

Review of effectiveness

SSDC has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the Corporate Governance Group, Management Board and the Corporate Performance Team, who have responsibility for the development and maintenance of the governance environment, the annual report from the Head of Internal Audit (SWAP), and also by comments made by the external auditors and other review agencies and inspectorates

The process that has been applied to maintaining and reviewing the effectiveness of the governance framework includes:

- The monitoring officer has a duty to monitor and review the operation of the Constitution to ensure its aims and principles are adequate. The Council reviews the constitution annually through its Standards Committee.

- The Council has a Scrutiny Committee that can call in any decision made by an Executive Committee before implementation. This enables them to consider whether or not the decision is appropriate. Pre-decision scrutiny has evolved to aid in the decision making process.

- The Audit Committee reviews the Annual Statement of Accounts, the Review of the Effectiveness of Internal Audit, and the Annual Governance Statement. It monitors the performance of internal audit quarterly and agrees the Internal and External Audit Plans. It reviews specific parts of the Constitution and makes recommendations on any amendments to full Council.

- The Audit Committee has a call in role for any service that receives a “partial” or “no assurance” audit opinion and monitors that the action plans are completed through regular reports from the Service Manager and Assistant Director.

- o Internal Audit through SWAP is responsible for monitoring the quality and effectiveness of systems of internal control. The Audit Service has a Charter approved by the Audit Committee and there are no restrictions on the scope of their work. A risk model is used to formulate the plan and it is approved by the Audit Committee. The reporting process for Internal Audit requires a report of each audit to be submitted to the Service Manager with copies to the relevant Assistant Director, Assistant Director – Finance and Corporate Services, Assistant Director - Legal and Corporate Services, and Chief Executive. All audit reports include an ‘opinion’ that provides management with an independent judgement on the adequacy and effectiveness of internal controls. Reports include recommendations for improvement that are detailed in an action plan that is agreed with the service manager.

- Internal Audit (SWAP) is subject to the Public Sector Internal Audit Standards (PSIAS). This includes an external assessment at least every five years. It requires an action plan to implement improvements and assess the efficiency and effectiveness of internal audit. This will be regularly reviewed by the Audit Committee.

- For performance management, a ‘traffic light’ monitoring and reporting system is in place reporting quarterly to the Executive Committee.

- The Council’s Financial Procedure Rules are kept under review and revised periodically – the last review was approved in March 2015.

- Each Manager and Assistant Director is required to review their adherence to the governance framework and demonstrate compliance through reviewing and signing a Statement of Internal Operational Control. Each return is assessed by the s151 Officer for compliance and any apparent organisational improvements are included in the Governance Action Plan.

- Audit Committee has been advised on the implications of the result of the review of the effectiveness of the governance framework and a plan to address weaknesses and ensure continuous improvement of the system is in place.

We have been advised on the implications of the results of the **review of the effectiveness of the governance framework** by the Audit Committee and that the arrangements **continue to be regarded as fit for purpose in accordance with the governance framework.** The areas already addressed and those to be specifically addressed with new actions planned are outlined below:

Actions from 2015/16

- A refresh of the **Risk Management Strategy**
- A Management Team review of **Service Planning** requirements

Significant governance issues

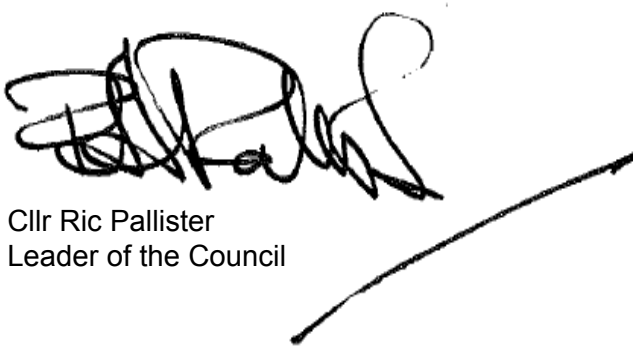
There are no significant governance issues to report for 2015/16.

However, we propose over the coming year to continue to take steps to strengthen and enhance our governance arrangements.

Signed on behalf of SSDC:

Donna Parham
Assistant Director - Finance & Corporate Services

Rina Singh
Chief Executive



Cllr Ric Pallister
Leader of the Council

Glossary of Terms

Local Government, in common with many specialised activities, has developed over the years its own unique set of terms and phrases.

This glossary helps to identify some of those terms and phrases (more often than not abbreviated in common usage to initial letters only) which will be found in this statement.

Accruals
are one of the main accounting concepts and ensures that income and expenditure are shown in the accounting period that they are earned or incurred, not as money is received or paid.

Accumulated Absences Account
is the account that holds the differences between the amounts debited or credited to the Comprehensive Income and Expenditure Statement in accordance with the Code and the amounts debited and credited to the General Fund in accordance with the statutory regulations relating to accruals made for the cost of holiday entitlements earned by employees but not yet taken before the year end

Agency Work
is the provision of services by an authority on behalf of, and reimbursed by, the responsible authority/body.

Amortised Cost
is a mechanism that sees through the contractual terms of a financial instrument to measure the real cost or return to the authority by using the effective interest rate method which incorporates the impact of premiums or discounts.

Annual Governance Statement (AGS)
sets out the arrangements the authority has put in place to manage and mitigate the risks it faces when meeting it responsibilities.

Apportionments
are a mechanism for allocating the cost of support services to front line and other services using appropriate bases (e.g. floor space for accommodation related support services) to spread the cost fairly.

Appropriation
is the transfer of an asset (e.g. land, buildings) from one service to another.

Asset
is something that South Somerset owns that has a monetary value. Assets are either 'current' or 'non-current'.

- Current assets are assets that will be used, or will cease to have material value, by the end of the next financial year (e.g. stock and debtors)
- Non-current assets provide South Somerset benefits for a period of more than one year.

Audit of Accounts
is an examination by an independent expert of an organisation's financial affairs to check that the relevant legal obligations and the codes of practice have been followed.

Available-for-Sale Assets
are financial assets which are not classed as loans and receivables. These include gilt-edged stocks and bonds which are quoted in an active market. They are carried in the balance sheet at fair value.

Available-for-Sale Financial Instruments Reserve
is a revaluation reserve introduced to manage the fair value process for Available-for-Sale Financial Assets. It is permitted to have a negative value provided that the losses posted to it are not impairment losses.

Balances
is the accumulated surplus of revenue income over expenditure.

Balance Sheet
is a financial statement summarising the Council's assets, liabilities and other balances at the end of each accounting period.

Budget
is a financial statement that expresses an organisation's service, delivery plans and capital programmes in monetary terms.

Capital Adjustment Account
is a reserve created from the balances on the Capital Financing Account and Fixed Asset Restatement Account as at 31 March 2007. This account will continue to record the consumption of historic cost over the life of the asset and Revenue Expenditure Funded from Capital under Statute over the period that the authority benefits from the expenditure. The account will also record the resources set aside to finance capital expenditure.

Capital Charges
represent the cost to services for the use of non-current assets in the provision of their services; the charges reflect depreciation and impairment.

Capital Contributions/Grants
are monies received from external bodies towards the financing of capital expenditure on a particular service or scheme.

Capital Expenditure (Outlay)
is on the acquisition of a non-current asset that will be used to provide services beyond the current accounting period or expenditure that adds value to an existing non-current asset.

Capital Discharged
is the extent to which capital expenditure has been met over a period by charging instalments to the revenue account, including the direct financing of expenditure in the year of acquisition.

Capital Financing Charges
represent, in the main, the cost to the Capital Financing Reserve of repaying loans, excluding interest, or the direct cost of acquiring assets, etc, in the year.

Capital Programme
is a financial summary of the capital schemes that South Somerset intends to carry out over a specified time period.

Capital Receipts
are the proceeds from the sale of capital assets; they are available to repay debt on existing assets and/or to finance new capital expenditure within rules set by the Government.

Cash Equivalents
are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Cash Flow Statement
summarises the inflows and outflows of cash arising from transactions with third parties for both revenue and capital purposes.

Cash Limited Budgets
are fixed sums of money, including allowances for pay and price increases, allocated to services, and within which all spending should be met; this also involves flexibility in the carrying forward of under and over-spendings.

Central Government Grants
comprise three types:

- Grants paid by central government to aid local authority services in general, as opposed to specific grants, which may only be used for a specific purpose.
- Specific service grants – grants in aid of services in which central government have a more direct involvement.
- Supplementary grants – grants in aid of both capital and revenue

CIPFA
is the Chartered Institute of Public Finance and Accountancy.

Code
is the Code of Practice of Local Authority Accounting that is generally based upon those accounting principles that are incorporated within approved accounting standards, modified to reflect the statutory framework in which local authorities operate. The Code states which accounts should be published as part of the Statement of Accounts, and the information to be included in each account.

Collection Funds
are separate funds recording the expenditure and income relating to council tax and non-domestic rates.

Collection Fund Adjustment Account
The Collection Fund Adjustment Account represents the Authority's share of the Collection Fund Surplus or Deficit.

Community Assets
are those assets held in perpetuity and which have no determinable useful life and there are often restrictions regarding their sale. Examples of South Somerset's community assets are Ninesprings and land at Ham Hill.

Component Accounting
is when significant components of non-current assets are depreciated separately over their useful life.

Comprehensive Income and Expenditure Statement (CIES)
consolidates all the gains and losses experienced by an authority during the financial year.

Consistency
is one of the fundamental accounting concepts. It requires accountants to treat similar items of income and expenditure the same way - both within an accounting period and from one accounting period to the next.

Corporate and Democratic Core
comprises all activities which local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Creditors
are amounts of money SSDC owes to others for goods and services that they have supplied in the accounting period but not paid for.

Debtors
are amounts of money others owe to SSDC for goods and services that they have received but have not paid for by the end of the accounting period.

Depreciation
is a charge made to the revenue account each year that reflects the reduction in the value of land, property, plant, ICT equipment and machinery used to deliver services.

Derecognition
is the term used for the removal of a financial instrument from the balance sheet. This will normally occur when the contractual rights to the cash flows arising from the instrument expire or are transferred.

Earmarked Revenue Reserves
are amounts set aside from revenue to meet particular spending needs, including funding capital projects.

Easement
is a charge made for access rights over land owned by the Council.

Effective Interest Rate
is the rate of interest that will discount all the cash flows that will take place throughout the expected life of a financial instrument down to the fair value of the instrument calculated at initial measurement.

Emoluments
are the cash payments or payments in kind an employee is entitled to. Pension contributions are not an emolument.

Employment Costs
are the salaries and wages etc, of staff including expenditure on training and the costs of redundancy.

Eurobonds
are debt contracts which records the borrowers' obligation to pay interest at a given rate and the principal amount of the bond specific dates.

Fair Value (Financial Instruments)
is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's-length transaction. If available, this will be a published price quotation in an active market; otherwise, alternative valuation techniques will be employed.

Fair Value (Tangible Assets)
is the price at which an asset could be exchanged in an arm's-length transaction less, where applicable, any grants receivable towards the purchase of use of that asset.

Fees and Charges
are the income raised by charging for the use of facilities or services.

Finance Leases
are those leases which transfer substantially the benefits and risks of ownership of the asset that is being leased to the party who is leasing the asset.

Financial Instruments
are any contracts that give rise to a financial asset of one entity and a financial liability or equity instrument of another. In practice these include bank deposits, loans, investments, borrowings and other receivables or payables.

Financial Instruments Adjustment Account
is the account which holds the differences between the amounts credited to the Comprehensive Income and Expenditure Statement in accordance with the Code and the interest income required to be credited to the General Fund in accordance with statutory regulations relating to amortisation on the discount of the early redemption of PWLB loans.

Financing Transactions
relate, in the main, to interest payments and receipts associated with the management during the year of the Council's cash flow and reserves.

General Fund Balance
compares the Council's spending against the Council Tax that it raised for the year, taking into account the use of reserves built up in the past and contributions to reserves earmarked for future expenditure.

Gilt
is a bond issued by the government which offers the investor a fixed interest rate for a predetermined set time.

Housing Benefits
is the national system for giving financial assistance to individuals towards certain housing costs. SSDC administers the scheme for South Somerset residents. The Government subsidises the cost of the service.

Impairment
is the reduction in the value of a non-current asset as shown in the balance sheet to reflect its true value.

Income
is the amount which the Council receives, or expects to receive, from any source; service committee revenue income includes grants, sales, rents and fees and charges.

Infrastructure
are those assets which do not have a realisable value and include roads and footpaths.

Intangible Assets
are assets that do not have physical substance but are controlled by the Council as a result of a past event.

Internal Service Recharge
Is a recharge from a department that provides professional and administrative support to other internal services.

IFRS
is an International Financial Reporting Standard advising the accounting treatment and disclosure requirements of transactions so that an authority's accounts 'present fairly' the financial position of the authority.

Investment
is the lending of surplus money to another party in exchange for interest.

Liability
must be included in the financial statements when SSDC owes money to others. There are different types of liability: -

- A current liability is a sum of money that will or might be payable during the next accounting period. e.g. creditors or cash overdrawn.
- A deferred liability is a sum of money that will not be payable until some point after the next accounting period or is paid off over a number of accounting periods.

Liquid Resources
are current assets which are readily convertible into cash at, or close to its carrying amount.

Loans and Receivables
are financial instruments that have fixed or determinable payments and are not quoted in an active market.

Long-term Investments
are those which are intended to be held on a continuous basis for the activities of the authority.

Materiality
is one of the main accounting concepts. It ensures that the statement of accounts includes all the transactions that, if omitted, would lead to a significant distortion of the financial position at the end of the accounting period.

Minimum Revenue Provision
is the sum required to be met from revenue under current capital controls to provide for the repayment of outstanding borrowings; additional sums may be voluntarily set aside.

Money Market Funds
are short term deposits that are deposited into a mutual fund that buys securities.

Movement in Reserves Statement (MIRS)
shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' and 'unusable reserves'.

National Non-Domestic Rate (NNDR) Income (also known as Business Rates)
Business Rates are collected locally, some of which is retained, and some is paid to Somerset County Council, Devon & Somerset Fire and Rescue, Central Government and BANES as lead authority of the Somerset Pool

NILO
stands for National Investment and Loans Office. It is a Central Government department and includes the PWLB. (Public Works Loans Board)

Net Book Value
is the Balance Sheet amount of non-current assets and represents their historical cost or current replacement value less cumulative depreciation provisions.

Net Current Replacement Cost
is the cost of replacing an asset in its existing condition and use.

Net Realisable Value
is the open market value of an asset in its existing use net of the potential expenses of sale.

New Homes Bonus
is a grant paid by central government to local councils for increasing the number of homes and their use. The New Homes Bonus is paid each year for 6 years. It is based on the amount of extra Council Tax revenue raised for new build homes, conversions and long-term empty homes brought back into us. There is also an extra payment for providing affordable homes.

Non-Current Asset
is an item of worth which is measurable in monetary terms and provides benefit for more than the period of account – see also Capital Expenditure.

Non-Current Asset Held for Sale
is a non-current asset that becomes available for sale and it is probable that the carrying amount of that asset will be recovered through a sale transaction rather than though its continuing use.

Non-operational Assets
are those assets which are not directly used in the provision of services and mainly comprise those assets which are surplus to requirements and held pending disposal.

Operational Assets
are those assets e.g. land and buildings, used in the direct provision of services.

Operating Leases
are all leases which are not finance leases.

Other Operating Costs
includes expenditure on buildings, fuel, light, rent, rates, and purchase of furniture and equipment.

Precept
is the means by which Somerset County Council; Avon and Somerset Police Authority; Devon and Somerset Fire and Rescue Authority and the parishes obtain their revenue income from the District Council's Collection Funds.

Provisions
are amounts set aside to meet costs which are likely or certain to be incurred, but are uncertain in value or timing.

PWLB
is the Public Works Loan Board, a Government agency which lends money to the public sector.

Prudence
is one of the main accounting concepts. It ensures SSDC only includes income in its accounts if it is sure it will receive the money.

Rateable Value
is the annual assumed rental value of a property that is used for business purposes.

Related Parties
are when at any time during the financial period:-

- One party has direct or indirect control of the other party
- The parties are subject to common control from the same source
- One party has influence over the financial and operational policies of the other party to an extent that the other party might be inhibited from pursuing its own interests
- The parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own interests.

Related Party Transaction
is the transfer of assets or liabilities, or the performance of services by, to or for a related party irrespective of whether or not a charge is made.

Remuneration
includes taxable salary payments to employees, together with non-taxable payments on termination of employment (including redundancy, pension enhancement payments, and pay in lieu of notice), taxable expense allowances and any other taxable benefits.

Reserves
result from the accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at SSDC's discretion.

Residual Value
is the value of an asset at the end of its useful life.

Revaluation Reserve
is a reserve which records the unrealised revaluation gains arising since 1 April 2007 from holding non-current assets.

Revenue Expenditure
is the day to day spending on salaries, maintenance of assets, purchase of stationery etc after deducting income such as fees and charges.

Revenue Expenditure Funded Capital under Statute
are capital grants made by SSDC to another organisation or person. This counts as capital expenditure but it does not create an asset that belongs to SSDC. The expenditure is charged to the balance sheet, but it is then reversed out through the Capital Adjustment Account to the revenue account.

Revenue Support Grant
is a general grant paid by the Government to local authorities as a contribution towards the cost of their services.

Slippage
is the term used mainly to describe capital payments occurring in later financial years than originally planned.

Usable Reserves
are reserves that can be applied to fund expenditure or reduce local taxation.
